IN every City in Canada the Underwood is used more generally than any other typewriter—in many places more generally than all other makes combined. The Underwood costs a little more than other typewriters. It is worth more—that's why people buy it. When you buy an Underwood you get more than the best machine—you get the best service from a Canadian Company, operating with Canadian capital and Canadian employees.

WEBSTER'S NEW INTERNATIONAL DICTIONARY

THE MERRIAM WEBSTER

Even as you read this Almanac you likely question the meaning of some *new* word. A friend asks: "What makes mortar harden?" You seek the location of *Loch Katrine* or the pronunciation of *jujutsu*. What is *white coal?* This NEW CREATION answers all kinds of questions in Language, History, Biography, Fiction, Foreign Words, Trades, Arts and Sciences, *with final authority.*

400,000 Words and Phrases Defined.

2,700 Pages.

6,000 Illustrations.

Cost $400,000.

The only Dictionary with the *new divided page*,—characterized as "A Stroke of Genius."

A sample commendation:—

HON. CHARLES J. TOWNSHEND, *Chief Justice of Nova Scotia*:—"In my view there is no Dictionary of the English language its superior for general use."

Write for specimen pages, illustrations, etc.

The Rhodes Scholarships

By GEORGE R. PARKIN

Mr. Parkin is Organizing Secretary of the Rhodes Scholarship Trust. His duties in connection with that position have been far-reaching, and there is probably no other man so well qualified as he to present to the public the interpretation of the unique will of Cecil Rhodes and the carefully studied system by which the provisions of the will are being carried out.

The chapter subjects are "The Founder"; "The Will"; "The University and the Colleges"; "Methods of Selection"; "Age Limits and Collegiate Standing"; "The University System"; "The Social Side of Oxford Life"; "Oxford and the Empire—America—Germany"; "The Scholar."

Illustrated. Large crown 8vo, $2.00 net. Postage, 14 cents.

Explanation of the Articles in the Calendar.

Standard times* are given in all columns headed Toronto, Quebec, and Winnipeg.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 14th.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The column, Sidereal Time, Sun on Meridian, shows for every day the Sidereal Time when the Sun's centre is on the meridian of longitude 4h. 46m. W. (71° 30'). For any other meridian interpolation of these quantities is necessary. For example, on Sept. 7th, 1913, what is the sidereal time when the Sun's centre is on the 82nd meridian west longitude. Here the difference in longitude is 10°.5. The tabulated sidereal time on the 7th is 11h. 2m. 39s., and on the 8th, 11h. 6m. 16s., giving an increase of 217 secs. which, multiplied by 10.5 and divided by 360, gives 6 secs. corr. to be added to 11h. 2m. 39 secs.

GREATEST ELONGATION OF THE POLE STAR.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42°, with the corresponding corrections, which are additive, for latitudes up to 65°. (See pages 33 and 34.)

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table. These constants are calculated for declination 88° 50' 47". The maximum error in the use of this Table will not exceed 5 secs. in the higher latitudes, and less for the lower latitudes.

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

*In the present Almanac the hours are numbered from 0 (midnight) to 23.

†Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

STAR TABLE.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result *subtract* the constant quantity 1h. 26m.

To find the time of *rising* of the star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting*, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Example.—Find the times of culmination, rising and setting of α Tauri (*Aldebaran*), January 2nd, 1913.

Middle of Eclipse ..... " " .6h. 58m. a.m.*
Total eclipse ends ..... " " .7h. 44m. a.m.
Moon leaves shadow ... " " .8h. 43m. a.m.
Magnitude of eclipse = 1.575 (moon's diameter = 1.0).

II.—*A Partial Eclipse of the Sun*, 1913, April 6, invisible in Canada.

III.—*A Partial Eclipse of the Sun*, 1913, August 31, invisible in Canada.

IV.—*A Total Eclipse of the Moon*, 1913, Sept. 15th, the moon setting eclipsed; the beginning visible generally in North America, excepting the extreme northern portions, the Pacific Ocean, Australia and eastern Asia; the ending visible generally in Alaska, the Pacific Ocean, excepting the eastern portions, Australia and Asia.

Moon enters shadow .... Sept. 15th. 5h. 53m. a.m.

COMPARATIVE TIMES AT VARIOUS POINTS THROUGHOUT THE WORLD.

Prepared and Published by Permission of the Commercial Cable Company, New York.

EXAMPLE:—You are, say, in NEW YORK, it is 11 P.M. and you want to know what the time is in YOKOHAMA. In the NEW YORK column find 11 P.M., run your finger horizontally along the line of figures until you arrive at the YOKOHAMA column, where you will find the time there to be 1 P.M. TO-MORROW. When your local time is not the exact hour, the minutes after the hour can be carried mentally.

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0·003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

SOME ASTRONOMICAL AND PHYSICAL FACTS

FROM THE LATEST AUTHENTIC SOURCES.

By F. L. Blake, O.L.S. and D.L.S.

Velocity of Light.

Fizeau determined the velocity of light by reflecting a spot of light from a mirror at one station to a second mirror at a distant station. The light was brought to a focus at the required points by means of lenses. A toothed-wheel whose revolutions could be registered was so placed that its teeth revolved in the focus, and the spot of light could be seen between two teeth. It was possible to turn the wheel so quickly that the spot of light was stopped by a tooth coming up before it could pass through. The distance between the stations being known, and the rate at which the wheel turned, the velocity of light could be found. Foucault's method consisted of a rapidly rotating mirror, on which a beam of light was admitted through a slit. It was then reflected on to a lens, after which it was brought to a focus on a concave mirror at some distance. It was possible to turn the mirror so quickly that it moved through a small angle before the spot of light returned. The distance between the mirrors, the rate of rotation of the mirror, and the amount of displacement being known, the velocity of light could be estimated. The velocity of light and the aberration angle being known, the sun's distance can be found.

(1) The ratio of the velocity of light and the earth in its orbit as determined by observation is as 10,089 : 1.

(2) The earth completes its orbit in $365\frac{1}{4}$ days.

(3) Light would do the same journey in $\frac{365\frac{1}{4}}{10,089}$ days.

(4) Knowing the time it would take to complete the revolution we can find how long it would take to cross the diameter, and therefore the radius.

(5) We multiply the number of seconds taken by light to cross the radius of the earth's orbit by the velocity of light, and it gives us 92,628,000 miles as the sun's distance.

Numerical Facts Relating to the Sun.

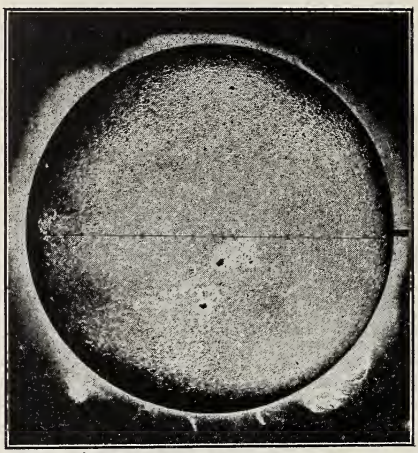
The solar Parallax (equatorial horizontal), $8''{\cdot}80 \pm 0''{\cdot}02$. Mean distance of the sun from the earth, 92,885,000 miles; 149,480,000 kilometers. Variation of the distance of the sun from the earth between January and June, 3,100,000 miles; 4,950,000 kilometers. Linear value of 1″ on the sun's surface, 450·3 miles; 724·7 kilometers. Mean angular semi-diameter of the sun, 16′ 02″·0. Sun's linear diameter, 866,400 miles; 1,394,300 kilometers. (This may, perhaps, be variable to the extent of several hundred miles.) Ratio of the sun's diameter to the earth's, 109·3. Surface of the sun compared with the earth, 11,940. Volume, or cubic contents, of the sun compared with the earth, 1,305,000. Mass, or quantity of matter, of the sun compared with the earth $330,000 \pm 3000$. Mean density of the sun compared with the earth, 0·253. Mean density of the sun compared with water, 1·406. Force of gravity on the sun's surface compared with that of the earth, 27·6. Distance a body would fall in one second, 444·4 feet; 135·5 metres. Inclination of the sun's axis to the ecliptic, 7° 15′. Mean time of the sun's rotation, 25·38 days. The time of rotation varies at different latitudes. Linear velocity of the sun's rotation at his equator, 1·261 miles per second. Total quantity of sunlight, 1,575,000,000,000,000,000,000,000 candles. Intensity of the sunlight at the surface of the sun, 190,000 that of a candle flame; 5,300 times that of metal in a Bessemer convertor; 146 times that of a calcium light, and 3·4 times that of an electric arc. Brightness of a point on the sun's limb compared with that of a point near the centre of the disc, 25 per cent. Heat received per minute from the sun upon a square metre (about a square yard), perpendicularly exposed to the solar radiation, at the upper surface of the earth's atmosphere (*the solar constant*), 25 calories. Heat radiation at the surface of the sun, per square metre per minute, 1,117,000 calories. Thickness of a shell of ice which would be melted from the surface of the sun per minute, $48\frac{1}{2}$ feet, or $14\frac{3}{4}$ metres. Mechanical equivalent of the solar radiation at the sun's surface, continuously acting, 109,000 horse-power per square metre; or, 10,000 (nearly) per square foot. Effective temperature of the solar surface (according to Rossetti), about 10,000° C, or 18,000 F.

The Sun.

"What we ordinarily call the sun," wrote the late Mr. Ranyard, "is only the bright spherical nucleus of a nebulous body." But it is only when the interposing moon during a total eclipse cuts off the dazzling rays of the nucleus that we see directly anything of its nebular surroundings. No sooner has the last glint of sunshine vanished than the corona starts into view, encompassing the black lunar globe with a sort of "glory" of silvery streamers. The awe and wonder of the sight tend, for the moment, to supercede scientific curiosity, and they are enhanced by the perception, at the base of the corona, of the scarlet "chromosphere" fringing the moon's circumference, while the towering "prominences" that are usually seen to spring from it produce the startling effect of a conflagration.

A considerable mass of information regarding the solar prominences have of late been collected. The size of these formations is enormous. They vary in height from 10,000 to 100,000 miles; and ranges of them 450,000 miles in extent have been photographed during total eclipses. Starting from the photosphere which is the visible surface of the sun we meet first an envelope producing the *general* absorption, by which sunlight is enfeebled and reddened. Next comes the reversing layer composed of mixed incandescent vapours, giving rise, by their *selective* absorption, to the Fraunhofer lines. These two layers lie close to the photosphere and are apparently indifferent to its agitations. They are overspread by the chromosphere and prominences, while above and beyond shines the mysterious corona. Another solar appendage remains to be noticed the Zodiacal Light.

After sunset in spring, and before sunrise in autumn, a mass of soft luminosity, often brighter than the milky way, may be seen tapering upward from the horizon along an axis approximating to the line of the ecliptic.



A spectroheliogram of the Sun in Calcium showing the solar flames and prominences.

The apex of the cone about reaches the Pleiades; but it does not really end there. The nature of this light has been without reasonable doubt solved during recent years. It is a reservoir for the sun's waste matter—the sink, into which are daily flung the particles rejected through the agency of the streamers composing the wonderful eclipse-vision of the corona.

Solar prominences are divided into two classes. The "quiescent" kind occur in all solar latitudes; they change their shapes very gradually. In form they resemble *pilliared clouds* resting in banks like heavy cumuli, or floating, like expanses of thin cirrus, high above the chromosphere with which they are ordinarily connected by slender supports. The chromosphere is a solar envelope, but not a solar atmosphere. It surrounds the sun to the depth of about 4,000 miles with a close tissue of scarlet flames, their tufted summits swaying and intercrossing as if under the gusty sweep of fiery winds. Any of these summits which attain an unwonted height become "prominences."

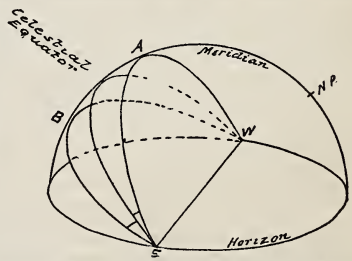
The reversing layer lies quite close to the photosphere. It is scarcely more than 300 miles deep. It may be described as an universal solar ocean of glowing metallic vapours.

The up and down rushes of flaming hydrogen above spots on the disc reach velocities of 320 miles a second and solar tornadoes are often observed to whirl at rates which would be incredible were they less well authenticated.

The Harvest Moon.

The full moon which occurs nearest to the autumnal equinox is called the *harvest moon*, for the reason that it rises very nearly at the same hour for several nights together, and so gives us a greater share of moonlight, by which harvest operations may be extended. At that time the sun will be at the autumnal equinoctial point, and when it is setting in the west, the vernal equinoctial point, and the moon with it, must be rising due east. The part of the ecliptic then above the horizon will extend from the east to the west point, but will lie wholly below the celestial equator. As the moon's path is very slightly inclined to the ecliptic, its movement will thus make only a small angle with the horizon, and for several nights together it will rise nearly at the same time.

In March, when the sun is near the vernal equinox, the full moon will be near the autumnal equinoctial point; when the sun is setting, the moon will be rising



Position of Ecliptic at Sunset at Vernal Equinox (EAW) and Autumnal Equinox (EBW)

as before, but in this case the part of the ecliptic which is above the horizon lies wholly above the celestial equator. The ecliptic is thus inclined at an angle to the horizon greater by 47° than when the vernal equinox

is rising in the autumn; the moon's path being near the ecliptic, its movement during a day will at this time carry it a long way below the Equator, and it will rise much later the following day.

In the southern hemisphere, the conditions are reversed, the harvest moon occurring at our vernal equinox, which, however, is the commencement of the southern autumn quarter.

A large crater ring with cone in the centre showing craterlets and the rugged nature of the moon's surface. There is no atmosphere, water or vegetation whatsoever, and the stars shine in an inky black sky.

The phenomena of the harvest moon recur, but are not so marked, in the month of October, and it is then called the hunter's moon.

It is important to bear in mind that this rising of the moon at nearly the same hour for several days occurs every month, but as the risings then occur in daylight or after midnight, and the moon is not full, no special attention is drawn to them.

Again, since the phenomenon of the harvest moon depends upon the small inclination of the path of the full moon to the horizon when it is at the equinoctial point, the circumstances will be modified by the latitude of the place of observation. At the equator, for example, there will be no harvest moon, as there the ecliptic is always greatly inclined to the horizon; in fact, it will be inclined at the same angle in spring as in autumn.

The moon's path being inclined to the ecliptic, the conditions as to the harvest moon will depend to a small extent upon the position of the moon's nodes, which revolve in a period of a little less than 19 years. At times, then, the moon's path will be inclined 5° more, and 9 years afterwards 5° less, than is the plane of the ecliptic, and under the latter conditions the harvest moon will be most pronounced.

The area of the moon is somewhat less than $\frac{1}{13}$th that of the earth. Its volume is $\frac{1}{49}$th, its mass $\frac{1}{81}$nd, the volume and mass of the earth. Hence the lunar materials are less dense than the terrestial in the proportion of about three to five. But this may be because they are under comparatively slight pressure, the lunar volcanoes are no longer active, only their remains stand as a record of a fiery past. The evidence of ancient seismic action on the moon is overwhelming. Its surface is pitted all over with cones and craters. Nearly 33,000 are marked on Schmidt's map, and the list is very far from being exhaustive (see illustration).

High and Low Moons.

At the time of the full moon, the moon is in the opposite part of the heavens to that occupied by the sun, sometimes being 5° above and other times 5° below. Manifestly, then, if the sun be high in the heavens at mid-day, it will be only a little below the northern horizon at midnight, and the moon, consequently, will be only a small distance above the southern horizon. In summer, then, quite apart from the fact that the nights are shorter, there is less moonlight.

In winter, on the other hand, the sun descends far below the northern horizon at midnight, and the full moon has a high elevation in the southern part of the sky. Thus the full moon is longest above the horizon where its light is of the greatest benefit to mankind.

Nebulæ.

The "Nebula in Andromedæ" known to astronomers as 31 Messier. It can be just seen with the naked eye, on a clear moonless night, as a hazy spot of light near the star Nu Andromedæ. Large telescopes have hitherto completely failed to resolve this wonderful object into stars. Its spectrum is not gaseous, so that if the nebula really consists of stellar points they must be of very small dimensions. It is generally conceded that the nebula may consist of masses of nebulous matter partially condensed into the solid form, but not yet arrived at the stage in which our sun is at present. In other words the whole nebulous mass may be in a fluid or viscous state which might perhaps account for its continuous spectrum.

Example: *September 12th, 1759* (Capture of Quebec).

Under heading "1752–1800," and in line with the year of the century (59th), find the letter **G**. Index **G** is then the key to the whole of the Calendar to the right for the year 1759, and by it will be seen that September 12th was on a Wednesday.

TIDE TABLES FOR HALIFAX, QUEBEC, AND ST. JOHN, N.B., 1913

These Tide Tables, with Tidal Differences for other places, are issued by the Tidal and Current Survey, in the Department of the Naval Service. They are based upon observations obtained by means of self-registering tide gauges, kept in continuous operation throughout the year. The records are reduced by the latest methods of analysis, and the principal tide tables are computed in the Nautical Almanac office, London.

The Tide Tables are based upon the analysis of the following tidal record :—Halifax, upon record obtained during the years 1851, 1852, 1860 and 1861, together with nine complete years between October 1895 and July 1906. Quebec, upon thirteen complete years, between November 1893 and April 1908. Father Point, upon eleven complete years, between January 1897 and July, 1910. St. John, N.B., upon thirteen complete years, between April 1894 and June 1908.

The TIME used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides; that is, from the same Datum to which the soundings are referred, on the Admiralty Chart of Halifax Harbour.

THE DRY DOCK.—To find the depth of water on the sill of this dock at any tide, *add* 23·4 feet to the height of High Water as above given. The TIDAL DIFFERENCES referred to Halifax, are given on page 44.

The TIME used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides; that is, from the same Datum to which the soundings are referred, on the Admiralty Chart of Halifax Harbour.

THE DRY DOCK.—To find the depth of water on the sill of this dock at any tide, *add* 23·4 feet to the height of High Water as above given. The TIDAL DIFFERENCES referred to Halifax, are given on page 44.

The TIME used is Eastern Standard, for the 75th Meridian, which is five hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides; that is, from the same Datum to which the soundings are referred, on the Admiralty Chart of Quebec Harbour.

LEVIS DRY DOCK.—To find the depth of water on the sill of this dock at any tide, *add* 7·7 feet to the height of High Water as above given. The TIDAL DIFFERENCES referred to Quebec, are given on page 44.

The TIME used is Eastern Standard, for the 75th Meridian, which is five hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides; that is, from the same Datum to which the soundings are referred, on the Admiralty Chart of Quebec Harbour.

LEVIS DRY DOCK.—To find the depth of water on the sill of this dock at any tide *add* 7·7 feet to the height of High Water as above given. The TIDAL DIFFERENCES referred to Quebec, are given on page 44.

TIDE TABLES, ST. JOHN, N.B., 1913.

The Time used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The Height is measured from the level of Low Water at Spring Tides, as ascertained by the tide gauge observations themselves. (This level is approximately 1½ feet lower than the Datum to which the soundings on the Chart of St. John Harbour are referred, as nearly as this can now be ascertained.)

Tidal Differences and other information for the Bay of Fundy, are given on page 44.

The Time used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The Height is measured from the level of Low Water at Spring Tides, as ascertained by the tide gauge observations themselves. (This level is approximately 1½ feet lower than the Datum to which the soundings on the Chart of St. John Harbour are referred, as nearly as this can now be ascertained.)

Tidal Differences and other information for the Bay of Fundy, are given on page 44.

CENSUS OF CANADA, 1911.

Comparing the census years of 1911 and 1901, the population of Canada is shown by provinces and territories in the following table, together with the increase in the period of ten years and the increase per cent, viz. :—

Provinces.	1911.	1901.	Increase.	Increase p.c.
Alberta	374,663	73,022	301,641	413·08
British Columbia	392,480	178,657	213,823	119·68

*Decrease.

The rural population in 1911 was 3,924,394 and the urban population 3,280,444. In 1901 the rural population was 3,349,516 and the urban population 2,021,799. The increase of rural population in the ten years is therefore 574,878 and of the urban 1,258,645, which is 17·16 per cent. for the former and 62·25 per cent. for the latter. In Alberta the increase of rural population in the ten years was 180,327 and of urban 121,314. In British Columbia the increase of rural population was 100,318 and of urban 113,505, and in Manitoba the rural increase was 70,511 and the urban 129,892. New Brunswick lost 1,493 rural and gained 22,262 urban, while Nova Scotia lost 23,981 rural and gained 56,745 urban. Ontario lost 52,184 rural and gained 392,511 urban. Prince Edward Island gained 15 urban, but lost 9,546 rural. Quebec shows gains of both rural and urban population, being 39,951 for the former and 313,863 for the latter. Saskatchewan also shows gains in both classes, being 287,338 for the former and 113,815 for the latter. In Yukon the rural loss was 13,430 and the urban loss 5,277. In the Northwest Territories, whose population is wholly rural, the loss was 2,933.

From the first census of the Dominion in 1871 to the fifth in 1911, a period of forty years, the population increased from 3,689,257 to 7,204,838 or nearly one hundred per cent. In Ontario during the same period the increase was 902,423, of Quebec 811,196, of Manitoba 430,286 and of British Columbia 356,233. Alberta and Saskatchewan, organized in 1905, show for the former an increase from 1901 of 301,641 and for the latter of 401,153. Nova Scotia made an increase of 104,538 in forty years, and New Brunswick an increase of 66,295. Prince Edward Island's population in the same period fell off by 293, and the decrease in the Northwest Territories is accounted for by the fact that Alberta and Saskatchewan have been organized out of the Territories.

The conjugal condition of the people is given in the following table for the whole of Canada. It shows the population classified by sex and conjugal condition for the five decennial periods 1871–1911.

Classes.	Sex.	1871	1881	1891	1901	1911

Divorced	Male	.....	.....	.....	337	839
	Female	.....	.....	.....	324	691
	Total	.....	.....	.....	661	1,530

Note.—In this table the population of Canada for 1871 does not include Manitoba, British Columbia, Prince Edward Island nor the Northwest Territories, which were not included in the Dominion Census of that year.

For the Census of 1901 the class of divorced persons was added and for the Census of 1911 the class of the legally separated. In 1901 there were 661 divorced and in 1911 there were 1,530. In 1911 the legally separated numbered 1,286 males and 1,584 females. There were also 29,097 males and 9,362 females not given. There were persons of the three classes in the country previous to 1911, but they were included with the single, married and divorced at proportional rates. The bulk of the "not given" class in the case of men was employed on railway construction and in mines, where it was difficult for the enumerators to get personal access to them or to procure information of them excepting from employers or the men in charge of their boarding or lodging places, and a like remark applies in the case of women who were not found at their homes.

The number of occupied dwellings in the sub-districts of the Dominion in 1911 was 1,413,913 and the number of families 1,488,353, compared with 1,028,892 dwellings and 1,070,747 families in 1901. The average number of persons per dwelling, in 1911, was 5·096 and per family 4·841, compared with averages of 5·220 per dwelling and 5·016 per family in 1901.

The area of Canada is given in the census tables of 1911 as 3,729,665 square miles of land and water, which is 15,909 square miles less than ten years ago. This is due in part to a reduction following the Alaska Boundary treaty, and also to new map measurements. The population per square mile was 1·93 in 1911, and in 1901 computed on the same area it was 1·44. In Alberta the population was 1·47 per square mile in 1911 and in 1901 it was ·28. British Columbia in 1911 had 1·09 per square mile, and in 1901 only ·50. Manitoba in 1901 had 3·46 per square mile, and in 1911 it reached 6·18. New Brunswick increased during the same period from 11·83 to 12·61 per sqare mile, and Nova Scotia from 21·45 to 22·98. Ontario's increase was nearly 1·30 per square mile, or from 8·37 in 1901 to 9·67 in 1911. Prince Edward Island in 1901 had a population of 47.27 and in 1911 it fell to 42·91. Quebec in the ten years has grown from 4·69 per square mile to 5·69, which is an increase of one per square mile as compared with 1·30 in Ontario. In Saskatchewan the increase has been from ·36 to 1·95, and in Yukon and the Northwest Territories there have been large decreases.

(*k*) The word "free" in any one of the Tariff Columns in Schedule "A" means that the goods opposite which the word appears, and to which the Tariff in said Column applies, may be imported and taken out of warehouse for consumption in Canada, without duty;

(*l*) The expression "iron" includes "steel";

(*m*) The expression "rolled iron" or "rolled steel" means iron or steel hot rolled only.

BRITISH PREFERENTIAL TARIFF

(1) The rates of Customs duties, if any, set forth in Column 1 "British Preferential Tariff" shall apply to goods the produce or manufacture of the following British countries when imported direct from any British country:

(*a*) The United Kingdom;

(*b*) The British Colony of Bermuda;

(*c*) The British Colonies commonly called the British West Indies, including the following:

The Bahamas;

Jamaica;

Turks and Caicos Islands:

The Leeward Islands (Antigua, St. Christopher, Nevis, Dominica, Montserrat, and the Virgin Islands);

The Windward Islands (Grenada St. Vincent and St. Lucia);

Barbadoes;

Trinidad and Tobago;

(*d*) British Guiana;

(*e*) British India;

(*f*) Ceylon;

(*g*) Straits Settlements;

(*h*) New Zealand;

(*i*) Cape of Good Hope;

(*j*) Natal;

(*k*) Orange River Colony;

(*l*) Transvaal;

(*m*) Southern Rhodesia;

(*n*) Any other British Colony or possession admitted to the benefit of the British Preferential Tariff in Canada, in the manner hereinafter provided;

INTERMEDIATE TARIFF

(2) The rates of Customs duties, if any, set forth in Column 2 "Intermediate Tariff" shall apply:

To goods the produce or manufacture of any British or foreign country to which the benefits of such Intermediate Tariff shall have been extended in the manner hereinafter provided, when imported direct from such foreign country or from a British country.

GENERAL TARIFF

(3) The rates of Customs duties, if any, set forth in Column 3 "General Tariff" shall apply to all goods not entitled to admission under the Intermediate Tariff or under the British Preferential Tariff.

FRENCH TREATY

(3) The rates of duties of the French Treaty of 1907 apply to natural and manufactured products originating in France, Algeria, the French Colonies and Possessions, and Territories of the Protectorate of Indo-China, upon entry for duty in Canada, when such products have been conveyed without transhipment from a port of those territories or from a port of a territory enjoying the preferential or intermediate tariff in respect of these products into a sea or river port of Canada.

Note.—Products originating as specified in this paragraph may be imported into Canada subject to entry under this Treaty, when conveyed without transhipment to a sea or river port of Canada from any British Country or from any country accorded most favoured nation treatment in tariff matters by Canada.

(4) Under the provisions of the French Convention Act, 1908, certain natural and manufactured products of the following countries are entitled to entry for duty in Canada upon the terms and conditions granted in respect of the like natural and manufactured products of France, Algeria, the French Colonies and Possessions, and the Territories of the Protectorate of Indo-China, viz.:—

The United Kingdom,

All British Colonies and British Possessions;

and also the following countries accorded most favoured nation treatment in tariff matters by Canada:—

Argentine Republic.	Norway.
Austria-Hungary.	Russia.
Bolivia.	Spain.
Columbia.	Sweden.
Denmark.	Switzerland.
Japan.	Venezuela.

PROOF OF ORIGIN

(4) Proof of origin, as prescribed by the Minister of Customs, shall be furnished with the bill of entry at the Custom House for goods admitted to entry under any of the Tariffs in Schedule A; and that the decision of the Minister of Customs shall be final as to the Tariff or Surtax applicable in any case to imported goods by reason of their origin:

Provided, that goods for which entry is claimed under the Intermediate Tariff shall be bona fide the produce or manufacture of a country which has been admitted to the benefits of such Intermediate Tariff;

Provided further that every manufactured article to be admitted under the British Preferential Tariff shall be boua fide the manufacture of a British country entitled to the benefits of such British Preferential Tariff, and that a substantial portion of the value of the manufactured article has been produced by labor in one or more of such countries.

DUMPING CLAUSE

6. In the case of articles exported to Canada of a class or kind made in Canada, if the export or actual selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada there shall, in addition to the duties otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption;

Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:

(*a*) Goods whereon the duties otherwise established are equal to fifty per cent. ad valorem;

(*b*) Goods of a class subject to excise duty in Canada;

(*c*) Sugar refined in the United Kingdom.

(*d*) Binder twine or twine for harvest binders manufactured from New Zealand hemp, istle or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purposes of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2) That the expression "export price" or 'selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

(3) That if at any time it appears to the satisfaction of the Governor-in Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

(6) Such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities, and offered for sale to all purchasers on equal terms.

(7) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

SURTAX

7. Articles which are the produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a Surtax over and above the duties specified in Schedule "A," such Surtax in every case to be one-third of the duty specified in the General Tariff in the said Schedule "A."

(1) Any question arising as to any foreign country or goods coming under the operations of the provisions in regard to the Surtax shall be decided by the Minister of Customs, whose decision shall be final;

Provided that the Governor-in-Council may make regulations for carrying out the purposes of this Section, and may, by Order-in-Council, from time to time suspend the Surtax from application to the goods of any country.

FISH FROM NEWFOUNDLAND

8. Notwithstanding anything in this Act, fish and other products of the fisheries of Newfoundland may be imported into Canada free of Customs duty until otherwise determined by the Governor-in-Council, by Order published in the *Canada Gazette*.

9. Fish caught by fishermen in Canadian fishing vessels and the products thereof carried from the fisheries in such vessels, shall be admitted into Canada free of duty, under regulations by the Minister of Customs.

DRAWBACK

10. On the materials set forth in Schedule "B" to this Act, there may be paid out of the Consolidated Revenue Fund, the several rates of drawback of Customs duties set opposite to each item respectively in such Schedule, under regulations by the Governor-in-Council.

PROHIBITED GOODS

11. The importation into Canada of any goods enumerated, described or referred to in Schedule "C" hereto is prohibited; and that any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and that any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding two hundred dollars.

COMBINE CLAUSE

12. Whenever from or as a result of a judgment of the Supreme Court, or Exchequer Court of Canada, or of any superior court, or circuit, district, or county court in Canada, it appears to the satisfaction of the Governor-in-Council, that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED BY O. H. COGSWELL, B.A., OTTAWA

NOTE—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We, however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorum* except when otherwise specified.

* Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, or Belgium.

† Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, Belgium or Italy.

Rates that have been lowered from the General to the Intermediate Tariff according to the terms of the agreement with the United States of America that came in force on March 31st, 1910, are printed in brackets [ ].

Abbreviations, F.T. = French Treaty, Sp.T. = Special Tariff.

* This bank was only in existence three months and twenty-six days. It re-opened for a few days and redeemed a few thousands of its notes. This lasted only a day or two, and the remaining note-holders with the exception of the Government got nothing. The Dominion Government received 25 cents on the dollar on several thousand dollars' worth of the notes which it held.

† The figures for the Bank du Peuple are as at July 31, 1895, sixteen days after actual date of suspension.

THE KING AND ROYAL FAMILY.

King Edward VII. Born November 9th, 1841; succeeded to the throne, January 22nd, 1901, on the death of Queen Victoria; died May 6th, 1910. He married Princess Alexandra of Denmark, March 10th, 1863. On the death of King Edward, Queen Alexandra took the title of Queen Mother.

THE KING.—George V., by the Grace of God of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the seas, King, Defender of the Faith, Emperor of India. His Majesty is the second son of the late King Edward and Queen Alexandra, the elder son, Prince Albert Victor, Duke of Clarence, having died in January, 1892. George V. was born June 3rd, 1865. He married on July 6th, 1893, his second cousin, Princess Victoria Mary Augusta Louise Olga Pauline Claudine Agnes of Teck.

THE QUEEN.—Mary, only daughter of the late Duke of Teck, was born at Kensington Palace, May 26th, 1867, and was married at Windsor to His Majesty, then Duke of York, on July 6th, 1893.

The children of King George and Queen Mary are:—

Prince Edward Albert Christian, Duke of Cornwall, born June 23rd, 1894. It has been arranged that his investiture as Prince of Wales, should be the occasion of the revival of an ancient Welsh ceremonial to take place at Carnarvon Castle, in July, 1911.

Prince Albert Frederick Arthur George, born December 14th, 1895.

Princess Victoria Alexandra Alice Mary, born April 23rd, 1897.

Prince Henry William, born March 31st, 1900.

Prince George Edward, born December 20th, 1902.

Prince John Francis Charles, born July 12th, 1905.

The surviving children of the late King Edward VII. besides King George V, are:—

Princess Louise, Duchess of Fife (Louisa Victoria Alexandra Dagmar), born February 20th, 1867; married July 27th, 1889, Alexander William George, Duke of Fife; died 29th January, 1912. Has two daughters, Alexandra, born May 27th, 1891, and Maud, born April 3rd, 1893.

Princess Victoria Alexandra Olga Mary, born July 6th, 1868.

Princess Maud Charlotte Mary Victoria, born November 26th, 1869; married 22nd July, 1896, to Charles, second son of the Crown Prince of Denmark, chosen King of Norway, Nov., 1905. Has one son Olaf.

The surviving children of her late Majesty Queen Victoria are:—

Her Royal Highness Helena Augusta Victoria, born May 25th, 1846; married to H R. H. Prince Frederick Christian Charles Augustus of Schleswig-Holstein-Sonderburg-Augustenburg, July 5th, 1866; issue three sons, one of whom died an infant, and one died in South Africa, Oct., 1900, and two daughters.

Her Royal Highness Louise Caroline Alberta, born March 18th, 1848; married March 21st, 1871, to the Marquis of Lorne, now Duke of Argyll.

His Royal Highness Arthur William Patrick Albert, Duke of Connaught, born May 1st, 1850; married March 13th, 1879, to Princess Louise Margaret, daughter of the late Prince Frederick Charles of Prussia, and has issue one son and two daughters. Arthur, Margaret, M. Gustavus Adolphus, Crown Prince of Sweden, and Patricia.

Her Royal Highness Beatrice Mary Victoria Feodora, born April 14th, 1857; married July 23rd, 1885, to Prince Henry of Battenburg, who died Jan. 20th, 1896; and has issue three sons and one daughter, now Queen Victoria of Spain; married King Alfonso May 31st, 1906.

The deceased children of her late Majesty Queen Victoria, besides the late King, are:—

Her Imperial Majesty Victoria Adelaide Mary Louisa, Princess Royal, Empress Frederick of Germany, born Nov. 21st, 1840, and married Jan. 25th, 1858, to Frederick, Crown Prince of Prussia, afterwards (March to June, 1888) second German Emperor, who died June 15th, 1888; died August 5th, 1901, and had issue four sons (two deceased), the eldest William, the present German Emperor, and four daughters.

His Royal Highness Leopold George Duncan Albert, Duke of Albany, born April 7th, 1853; married April 27th, 1882, to Princess Helen of Waldeck, and died March 28th, 1884, having had issue one son, now Duke of Albany, who succeeded his uncle, the Duke of Edinburgh, as Duke of Saxe-Coburg-Gotha, on July 30th, 1900, and one daughter.

THE KING'S CIVIL LIST.

Consequent upon the death of His Majesty King Edward VII., and the accession of His Majesty George V., there was passed in the Parliamentary session of 1910 what is known as the Civil List Act, the Act by which is determined what charges shall be made on the consolidated fund for the maintenance of the King and his family.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the Accession of the late King Edward VII., the income from the Crown Lands has very greatly increased.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of £470,000, which was the same amount as that granted to King Edward VII.

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse	£110,000
II. Salaries of His Majesty's household and retired allowances	125,800
III. Expenses of His Majesty's household	193,000
IV. Works	20,000
V. Royal bounty, alms and special services	13,200
VI. Unappropriated	8,000
Total	£470,000

Her Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoys an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Duchess of Fife), Princess Victoria and Princess Maud (Princess Charles of Denmark), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £576,000, being £470,000 for the King's Civil List, and £106,000 in respect of allowances to other members of the Royal Family. This amount is somewhat increased by the allowance of £70,000 made to Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to £30,000 should she survive his Royal Highness. Each of King George's sons is to receive an annuity of £10,000 on coming of age, to be increased to £15,000 on his marrying. The allowance to daughters is to be £6,000 a year. No provision is made in the Act for children of younger members of the Royal Family.

The annuities to the Royal Family after the resettlement at the accession of George V. stand thus:—

His Majesty (Civil List)	£470,000
Queen Alexandra	70,000
Pensions transferred to Consolidated Fund	18,000
Princesses Louise, Victoria and Maud	18,000
Princess Christian of Schleswig-Holstein	6,000
Princess Louise, Duchess of Argyll	6,000
Duke of Connaught	25,000
Princess Beatrice (of Battenburg)	6,000
Duchess of Mecklinburg-Strelitz	3,000
Duchess of Edinburgh	6,000
Duchess of Albany	6,000
Total	£634,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

THE BRITISH ARMY IN 1912-13.

There was an increase in the Army Estimates for 1912-13 as compared with the estimates for 1911-12 of £170,000. This increase was due entirely to increased provision for aviation services, the total cost of which in 1911-12 was £131,000. For the current year the cost of the aviation service was placed at £322,000, an increase of £191,000, or considerably more than double the cost of the preceding year. Of this increased cost £14,000 is contributed by the Admiralty, and £7,000 comes from savings effected in the other services of the army. The Army Estimates were issued on February 27th, 1912. They showed a total of £27,860,000 for 1912-13 as compared with £27,690,000, the estimate for 1911-12. The figures for the seven years during which the Liberal Government has been in office are as follows :—

1906-7	£27,764,900
1907-8	27,141,642
1908-9	27,459,000
1909-10	27,435,000
1910-11	27,760,000
1911-12	27,690,000
1912-13	27,860,000

Apart from this increased expenditure on aviation, the provision of the necessary funds for several important services, such as the growth of mechanical transport, additional horses for the cavalry, and reserves of the new cartridges, all coming in a year when scarcity of forage increased the charge of that item alone by £90,000 was accomplished by the exercise of strict economy in other directions. Last year there was an increase of £106,000 in the cost of the Territorial Force—an increase which was accompanied by reforms in the financial methods of the county associations, and by more careful provision for systematic renewals. These reforms worked out so satisfactorily that in 1912, many of the associations, after providing the reserves for renewals in full, had net surpluses on hand. There was consequently no increased call for the Territorial Force in the Estimates for 1912-13.

The Regular Army.

Recruiting though not specially brisk in 1911-12, was better than it had been in 1910-11, and at the time the Army Estimates were submitted to Parliament, Colonel Seely, then Under-Secretary for War, stated that the number of men in the Expeditionary Force was 10,000 greater than it was in 1908, and that there were 50,000 more men in the reserves. The only arm of the force in which there was a serious shortage of men was the Royal Engineers. This shortage Colonel Seely attributed to the fact that the emoluments of the soldier tradesman have not kept pace with the improved rate of wages obtainable in the open market. It had at last become necessary, he continued, to revise the pay of the sapper in such a way as to afford the average man a substantial increase. At the same time to reduce the expense involved and to diminish the number of skilled recruits required, it had been decided to introduce a proportion of men of the pioneer class—that is, handy men of the skilled labourer type—into the Royal Engineer units, whose duties in the field do not require that they should be entirely composed of skilled artificers. Speaking of the general efficiency of the Army, Colonel Seely quoted the "Revue Militaire," which is the official organ of the French Military Staff. "There is no army," read this editorial comment of the French authorities on the British army, "which has made progress comparable with the British during the last few years. Its infantry is particularly remarkable, and continues to improve."

Strength of the Forces.

The general total of the Army, all ranks, as reported to the House of Commons on February 27th, 1912, was:—Establishment, 813,230; strength, 732,108. These totals include 806,670 in the Regular Army, and 500 in the militia reserve division, 179 permanent staff of militia (Channel Islands, Malta and Bermuda), militia 5,562, and 312 in the volunteers of Bermuda. The strength of the Regular Army is given as 724,698; Militia, 1,655, Militia Reserve division, 205; Channel Islands, Malta and Bermuda militia permanent staff, 178; Militia, 5,243; Bermuda volunteers permanent staff, 4; volunteer officers and volunteers, 225. The Indian Establishment was 75,882. There was a total of 46,713 in the colonies and Egypt, including 11,431 in South Africa and 4,134 at Gibraltar. The number of recruits who joined the army, excluding 140 re-enlisted men and 584 recruits from colonial corps, was 29,452. Recruits who joined the Special Reserve during the year under review, numbered, exclusive of re-enlisted men, 20,616. The total strength of the Army Reserve increased 2,819; and on October 1st, 1911, it stood at 148,531, while the strength of the Special Reserve was 57,908. There was a net loss from desertion during the year of 1,664 men.

There was a great improvement in 1912 in regard to the physique and morals of the men of the regular army. Colonel Seely especially commented on the great increase in sobriety among the men. In 1889, he said, there were 688 men admitted to hospital suffering from alcoholism; in 1903 the number had fallen to 179; in 1911 it was 37. During the last few years the admissions to hospital for certain preventable diseases had been reduced by more than one-half, and deaths had been reduced to one-quarter of the total of seven years ago. In 1903 there were 10,747 courts martial in the army; in 1911-12 only 5,381. Good conduct medals were awarded to 2,000 men in 1903; to 5,000 men in 1911. There were 25,000 members of the Royal Army Temperance Association.

Horses for the Army.

On mobilization there would be required for the regular army 44,000 horses in addition to those already in use. The adoption of mechanical transport had reduced the army's need of horses by 8,000. From the census of horses that was taken in 1911 it was known that there would be enough horses available; but although the number might be sufficient Colonel Seely stated that there were not enough horses in England in hard training such as would fit them for moving the guns. This was due, he added, to the disappearance of the omnibus horse. There was the same difficulty in connection with the Territorial Force, which required 86,000 horses. As a result of the investigation in 1911

into the system of horsing the cavalry in the peace establishments, the mode of supply of remounts and the methods of training the horses, it was discovered that a very large proportion of the horses in the cavalry regiments would be unfit for hard work in the case of an outbreak of war. It had consequently been found necessary to make an increase in the number of horses maintained in the regiments in peace. It was also announced that the War Department was perfecting a new system of collecting remounts, and sending each regiment its annual supply in one batch, to be then subjected to a course of systematic and progressive training, instead of sending horses to the regiments in small numbers throughout the year. Later in the year, on July 16th, Colonel Seely who had then succeeded Viscount Haldane as Secretary for War, announced that a grass farm of 150 acres at Whitley had been presented to the government for 21 years at a peppercorn rent by Mr. Pinckard. To this farm horses were to be sent in batches for rest and recuperation. He added that if the plan was successful the system would be further extended.

Armament.

The re-armament of the Field Howitzer Batteries with the new quick-firing Howitzer guns, which was the feature of the year 1911-12, was completed before the presentation of the Estimates to Parliament. The next addition to armament equipment was the issue of a new pattern dial sight to the 13-pounder and the 18-pounder guns. A new carriage for the mountain guns was also adopted in 1912, and its manufacture begun. Before his resignation, Lord Haldane also announced that it was the intention of the War Department to re-equip the whole of the Expeditionary Force with pointed bullets and re-sighted rifles. Before deciding on the pattern rifle, automatic rifles had been carefully examined, but none had been found satisfactory. As it was not considered advisable to delay longer the introduction of an improved rifle, a new pattern of magazine rifle had been worked out, and a number of rifles for an extended test by the troops were manufactured and distributed. In a debate on the Army Estimates on March 4th, Colonel Seely described the rifle in use in the British army as "extraordinarily reliable." "Our rifle," he asserted, "shot the straightest and the fastest, gave the hardest blow at all ranges over the short ranges, and was, therefore, in spite of many defects the best rifle of any possessed by Continental powers. At ordinary range our rifle was superior in accuracy to all other rifles, and at extreme ranges it showed a much greater superiority over all others except the American rifle."

Aviation.

Probably the most interesting feature of the Army Estimates was the outline they contained of the development of aviation in connection with the army. It was announced on February 27th, that the Committee of Imperial Defence had decided to establish immediately a joint army and navy school of aviation, at which officers of both services should be trained. The site selected for the school is on Salisbury Plain. A beginning was made at once on the necessary buildings, and before the summer, preparations were far enough advanced for the work of training to commence. The buildings included accommodation for officers and men, instructors and mechanics, and workshops for repairs and sheds for the aeroplanes. The cost of the land was £90,000, and the buildings when complete are to cost £38,000.

One flying corps was organized. This embraces soldiers, sailors and civilians—any man who can fly and who is willing to undertake to serve the country by aeroplane in time of war is at liberty to enroll. No man can hold executive rank in the Flying Corps unless he is an expert aviator. The corps is organized for service either on land, if the warfare be on land, or over the ocean if the warfare be naval. The school is planned to accommodate 60 officers; and as each man must have four months of training, 180 officers can be passed through the school in the course of a year. No officer is admitted to the school until he can produce his Royal Aero Club certificate from a private aerodrome. The school is not intended to teach men to fly, but to give men who already are aviators, advanced instruction. The course includes progressive flying, mechanics, construction in all its details, metereology, observations from the air, aerial navigation and flying by compass, cross country flying, photography from the air, signalling from the air, and also the types of warships of all nations. After taking the course of instruction, an officer of the Air Corps will join either the military wing or the naval wing, or he may go straight to the reserve.

The military wing, when complete, will consist of seven aeroplane squadrons, each containing twelve aeroplanes and a suitable number of officers to fly them. There will be an eighth squadron consisting of balloons and kites. Details concerning the naval wing do not come within the scope of this article. In the reserve there are to be two classes. In the first will be the men who receive a retaining fee, and in the second, men who do not desire a retaining fee, but who will hold themselves available in time of war. The scheme, as outlined by Colonel Seely, involved the purchase of 131 aeroplanes, of which seventy-one were sanctioned before the end of April. It was not expected that all these aeroplanes would be purchased during the year 1912-13. This was not a question of cost but of delivery.

In giving the orders it was found impossible to give all to British manufacturers, because the technical members of the Committee of Imperial Defence—themselves flying men—realized that the first essential was safety and efficiency, and they held that in these respects France had gone a long way ahead of England in the manufacture of aeroplanes. In fact, the number of orders given originally to British manufacturers was afterwards reduced, because investigation showed that in France the risks of learning to fly had been greatly lessened. The Committee expected later to be able to patronize English makers, for great attention was now being paid to overcoming the difficulties surrounding the making of safe aeroplanes, and there seemed little doubt that improvements would soon be effected which would justify the War Department in patronizing British instead of foreign makers.

In spite, however, of the care exercised by the Committee in the purchase of aeroplanes the most discouraging feature of the aviation school, when it got into operation, was the large toll of life taken in

connection with the training and the manœuvres. This loss of life was connected chiefly with the use of monoplanes; and in September, after an accident which caused the death of four men, the use of monoplanes was suspended until plans had been worked out for ensuring greater safety in addition to the greater speed that had been achieved with these flying machines.

The Territorial Force.

In the debate in the House of Commons on the Army Estimates, almost all the criticism of the Opposition was directed on the Territorial Force. Its numbers, its training, and its efficiency were especially the object of attack by members of the Conservative Opposition who are in favor of universal military training. From the Labor men there was criticism of Sunday shooting, and of the obligatory attendance for training of members of the Force on Sundays. This criticism was answered by Colonel Seely, who stated that arrangements had been made to have divine service either before or after the shooting practice, and that consequently more people would be likely to attend church than would be likely to do so if there were no combination of military training and church services.

The only important change in the establishment of the Territorial Force made in 1911-12 was the addition of one more cyclist battalion to be raised in the northern counties. The strength of the Territorial Force on February 1st, 1912, was 8,385 officers and 258,000 men, showing a decrease of 304 officers and an increase of 101 in the number of the men in the ranks, as compared with the figures in the corresponding month of 1911. The decrease in the number of officers was compensated to some degree by an increase of 113 officers in the Territorial Force Reserve. The number of officers who had accepted liability for foreign service was 1,148, and of men 19,481.

The summer of 1912 was a critical period for the Territorial Force, because a very large number—nearly 95,000—of the men who had enlisted on the formation of the Force then reached the end of their engagement. But up to the end of 1912 figures had not been published giving the exact position of the force in regard to re-enlistment. Up to July 23rd, according to a statement made in the House of Commons by Mr. Harold Baker, Financial Secretary to the War Office, there had been 55,753 recruits to the Territorial Force, as compared with 35,362 in the corresponding months of 1911. At that date the number of men who had reached the end of their engagement and had not re-enlisted was 24,000, but owing to the large number of recruits, the strength had not been diminished.

During the year 1911-12, 13,360 men were discharged at their own request. Of these over 11,000 were discharged free, and the remainder purchased their release. Just previous to the period when the expiration of many of the men's terms fell due, the average of the strength of the whole Force was 86 per cent. of the establishment. In many counties the strength was over 90 per cent., and the Force was increasing in strength and popularity. Of the counties which are allotted establishments of more than 10,000 the West Riding of Yorkshire held the first place with just under 90 per cent. East Lancashire and the City of Glasgow were second and third with about 88 per cent.; and West Lancashire and the City and County of London had 85, 80, and 78 per cent. respectively. Warwiek and Stafford with establishments between 5,000 and 10,000 have each 94 per cent. of their numbers. Durham is third with 91, and Glamorgan fourth with 90 per cent. Of the smaller counties Radnor had 100 per cent., Montgomery and Linlithgow 98 per cent., and Lanark, Wiltshire and Huntingdon 97 per cent.

Special Reserve.

The total strength of the Special Reserve on January 1st was about 1,800 less than in the previous year, but there was an increase of 70 officers. Active emigration and a good labour market in 1912 increased the number of discharges by purchase and told against recruiting. The establishment of the Special Reserve is 88,000, and the actual strength in July, 1912, was only 61,951. This reserve is the heir to the old militia. It is intended to act as a relieving force for the line battalions.

THE BRITISH NAVY IN 1912-13.

The Navy Estimates for the year 1912-13, when presented to the House of Commons on March 12th, called for £44,085,400, a decrease of £307,100 from the expenditures of 1911-12. When these Estimates were submitted, however, Mr. Winston Churchill, First Lord of the Admiralty, explained that if there were increases in the navy building programmes of other naval powers, the Admiralty would be compelled to present supplementary estimates for both men and money. On July 18, a supplementary navy estimate was issued, calling for £990,000, and 1,500 additional men. With the estimate of March 12th, this made the cost of the British Navy in 1912-13 £45,075,000, as compared with £44,392,500 for 1911-12—an increase of £682,500. The amounts voted by Parliament for the Navy since the Liberals came into office in 1905 have been as follows:—

1906-7	£33,573,302
1907-8	32,238,590
1908-9	31,789,860
1909-10	35,142,700
1910-11	40,603,700
1911-12	44,392,500
1912-13	45,075,000

The Shipbuilding Vote.

There was a decrease in the appropriation for shipbuilding of £481,350. This was due to the expenditures, made necessary in 1912-13 in respect of work already begun, being less than the corresponding charges for 1911-12. Under the estimates as submitted on March 12, there was a call for £1,903,800 for beginning work on ships of the new programme, and £12,067,727 for the

continuation of work on ships already under construction. In July, these amounts were increased in the supplementary estimate by £315,000 for machinery for ships, and £296,000 for hulls—making the whole cost of construction work in 1912-13 £14,582,527, as against £15,063,877 for 1911-12. As compared with the previous year the proportion of expenditure on new work was considerably greater, while the amount needed for the continuation of work was somewhat less. In commenting on the shipbuilding estimate, Mr. Churchill remarked that there could be little hope of decrease in the future, as the Admiralty must look forward to the growing cost and numbers of the personnel, the rise in prices of all material, and the growing size and number of the guns carried by the vessels.

Ships Completed, and New Ships.

On the 31st of March, 1912, the following ships had been completed and become available for service:—

Armoured ships—Hercules, Orion, Monarch, Colossus.

Protected cruisers—Dartmouth, Weymouth, Yarmouth, and Falmouth.

Unarmoured cruisers—Blonde and Active.

Destroyers—Nautilus, Brisk, Minstrel, Nereide, Nymphe, Ruby, Sheldrake, Acheron, Ferret, Forester, Hind, Fury, Sandfly, Archer, Defender, Druid, Jackal, Lapwing, Tigress.

Submarines—D 3, 4, 5, 7 and 8.

Miscellaneous—Adamant, Watchful, Esther, and Daisy.

At the same time there were under construction 10 battleships, 6 battle cruisers (including one each for the Commonwealth of Australia and the Dominion of New Zealand); 8 second-class protected cruisers (including two for the Commonwealth of Australia); 2 unarmoured cruisers; 31 destroyers; 15 submarines (including two for the Commonwealth of Australia); and 2 river gunboats.

The ships of the new programme are as follows:—Four large armoured ships; 8 light armoured cruisers: 20 torpedo boat destroyers; together with a number of submarines and subsidiary craft.

The New Zealand and the Australia battle cruisers which are being built for the New Zealand and Australian Governments respectively, were launched in July and October, 1911. It is expected that the New Zealand will be commissioned early in 1913, and immediately after commissioning it is intended that the vessel shall proceed to New Zealand on a visit. According to the agreement with the Australian Government, the Australian squadron controlled by the Admiralty is to be changed into an Australian fleet unit, controlled by the government of the Commonwealth. In pursuance of this scheme the King approved the designations "Royal Australian Navy, His Majesty's Australian ships, and Royal Australian Naval Reserves," for use in the fleet unit.

Works at Rosyth and Portsmouth.

The most important construction work, not on new ships, was in connection with the new works at Portsmouth and Rosyth. These were well advanced in 1912, and Mr. Churchill announced, when he explained the Navy Estimates, that if the contractors were to complete the works in contract time there would be a call for heavy payments to them during the year 1912-13.

Allocation of the Money.

The number of officers and men and boys for the British Navy in 1912-13 provided for in the Estimates of March 12th, was 136,000, an increase of 2,000 over the number for 1911-12. This increase included two flag officers, 44 commissioned officers, 19 subordinate officers, 111 warrant officers, 1,310 petty officers and seamen, 413 boys and 101 Royal Marines. In July when the Supplementary Estimates were submitted, the House of Commons voted money for 1,500 additional officers and men, making the whole number 137,500—an increase of 3,500 over the number of 1911-12.

According to the March Estimates the detailed expenditures for the British Navy were expected to be as follows:—

Wages, etc., officers, men and boys, coastguards, and marines	£7,801,500
Victualling and clothing	3,359,437
Medical establishments and services	289,965
Martial law	3,600
Educational services	218,885
Scientific service	103,789
Royal Naval Reserves	436,432
Shipbuilding personnel	3,515,800
Shipbuilding material	5,457,100
Shipbuilding contract work	13,230,600
Naval armaments	4,064,700
Works, buildings, and repairs	3,547,000
Miscellaneous effective services	545,386
Admiralty Office	437,350
Total effective services	43,011,544
Total non-effective services (half-pay, retired pay, pensions, etc.)	2,937,748
Total	45,949,292
Less contributions from India, Egypt and the Colonies	1,863,892
Net Total	44,085,400

A comparison of the world's fleets was published in Brassey's Naval Annual on May 12th, 1912. The article is by Viscount Hythe, and in it he comes to the conclusion that the fleets maintained by Great Britain in the waters of Northern Europe are sufficient to meet any reasonable contingency. The following table shows the number of ships in commission and in reserve in the navies of Great Britain and the principal European powers:—

Great Britain:	1903	1906	1910	1911	1912
Home—I and II	10	16	16	16	16

A second table gives a forecast of the relative position of the principal navies of the world up to the end of 1914, and a comparison of this position with that of 1911 and 1912. The figures are as follows, the comparison being confined to modern battleships:—

	1911.	1912.	1913.	1914.
Britain	36	39	43	47
Germany	17	20	23	26

Another table shows the number of Dreadnought battleships in the undermentioned years:—

British Naval Policy.

A full explanation of the present policy of the British Government in regard to the strength of the navy was given by Mr. Winston Churchill, First Lord of the Admiralty, in the House of Commons, on March 18th, during the debate on the Navy Estimates. The English ship-building programme, he frankly told the House, was undertaken mainly with a view to Germany. "But Germany," he added, "had not yet begun to feel the weight of maintaining year after year a gigantic naval service. This service matures slowly but remorselessly. The expense of maintenance grew irresistibly with every year and it may be found therefore as time passes the very rapid rate of new construction which we have seen elsewhere may to some extent be abated by the dead-weight drag of maintenance charges." This, Mr. Churchill gave as one reason for refusing to be stampeded into a vastly increased ship-building programme. Another reason was "that it is wrong and wasteful to build a single ship for the Navy before it is wanted. Up to the moment when the contract for a battleship is assigned the battleship is heir to all the expanding naval science of the world. But from the day when her design has been finally fixed she becomes *ipso facto obsolescent*; she is a wasting security. Nearly three years of her brief life are lived before she is born. Before she is even launched the vessels which can destroy her have been planned."

"The only safe rule that Great Britain can follow, continued Mr. Churchill, "is to maintain the minimum consistent with full security. We are not prepared to recommend at the present time the "two keels against one" standard in new construction against Germany. The actual standard in new construction which the Admiralty has followed in recent years has been to develop a 60 per cent. superiority in battleships and battle cruisers of the Dreadnought type compared to the German Navy as fixed by the Fleet Law. There are other and higher standards for smaller vessels with which I do not now complicate the argument. If Germany adhere to her present law, we believe that this standard would, in the absence of unexpected developments in other countries, continue to be a convenient guide to work by for the next five years."

Mr. Churchill then proceeded to illustrate his proposition. "Take," he said, "the year 1912. In that year Germany will build three capital ships, and it will be necessary for us to build five. Supposing we were both to take a holiday for a year. Supposing Germany were to build no ships. She would save herself between six and seven millions sterling. But that is not all. The three ships that she did not build would automatically wipe out no fewer than five potential British super-dreadnoughts, which is more than they could hope to do in actual war. As to the indirect results, even from a single year, they simply cannot be measured, not only to the two great brother nations, but to all the world of toiling men immeasureable in their hope and brightness. This then is the position that we take up, that the Germans will be no gainers in naval power by any increase they may make, and no losers by any diminution. Here then is a perfectly plain arrangement, whereby without any diplomatic negotiation, without the slightest restriction upon the sovereign freedom of either power, this keen and costly naval rivalry can be at any time abated. It is better I am sure to put it quite frankly and simply, for the Parliament and the people to judge."

The Supplementary Estimates of July 18 were explained to the House of Commons by Mr. Churchill on July 22nd. They were the consequence of the new Fleet Law passed by the German Reichstag in June, 1912. The main feature of that law was not the increase in new construction, important though that was. It was the change in the method of recruiting, and in the number of the personnel, which would render the German fleet far more mobile, more available and more formidable, than under the unamended law. It was not so much that Germany would have more ships; but that more ships would be in commission and ready for service at any time. It was for this reason that Mr. Churchill asked for 1,500 additional men, and that he proposed a reorganization of the British fleet, intended to meet the new situation created by Germany.

Admiralty Changes.

In September Mr. Churchill announced a reform in the distribution of Admiralty business, intended to define and reorganize the duties of the department, and to relieve the Third Lord of routine business, and to give him leisure for the study of naval science. Following is an outline of the new duties of the Lords and Secretaries of the Admiralty:—

The Board of Admiralty.

First Lord—General direction of all business.

First Sea Lord—Organization for war and distribution of the Fleet.

Second Sea Lord—Personnel.

Third Sea Lord—Material.

Fourth Sea Lord—Stores and transport.

Civil Lord—Works, buildings, and Greenwich Hospital.

Additional Civil Lord—Contracts and dockyard business.

Parliamentary Secretary—Finance.

Permanent Secretary—Admiralty business.

In any matter of great importance the First Sea Lord is always to be consulted by the other Sea Lords, the Civil Lord, the additional Civil Lord, and the Parliamentary and Permanent Secretaries, but each member of the Board and the Parliamentary and Permanent Secretaries will communicate direct with the First Lord.

Canada and the British Navy.

In the debate on the Supplementary Estimates on July 22nd, Mr. Asquith, the Prime Minister, alluded to the uncertainty which had existed since the Conservative Ministry came into power at Ottawa, as to what line the Dominion intended to take with regard to the Navy. "I desire," said Mr. Asquith, "on behalf of the Government to tender our most grateful acknowledgments to Mr. Borden and his colleagues, not only for the spirit in which they have entered into these deliberations, but for the contributions they have already made to our knowledge of the matter. I am sure the House will agree with them that their first duty is to their own constituents and colleagues in Canada, and that any announcement which they may be in a position to make after our conferences are completed will be more appropriately made there than here. Whatever it may be, I am perfectly certain it will be adequate to the dignity and to the patriotic spirit of the great Canadian Dominion, and we shall receive it here with the utmost gratitude as an acknowledgment that we are true co-partners in this great Empire, and that its burdens and responsibilities are shared between the mother country and the Dominions, and that we cannot either in peace or war isolate ourselves from one another. I would add, though I cannot make any detailed statement on the point at this moment, that side by side with this growing participation in the active burdens of Empire on the part of our Dominions there rests with us undoubtedly the duty of making such response as we can to their obviously reasonable appeal that they should be entitled to be heard in the determination of the policy and in the direction of its affairs."

A Final Survey of the Year with the Navy.

The latest official statement with regard to the strength of the Navy—the latest before the Canadian Almanac went to press—was made by Mr. Winston Churchill, First Lord of the Admiralty, at the Lord Mayor's banquet on the 9th of November. "This year," Mr. Churchill then said, "has witnessed important naval developments. The fleet has been reorganized upon a complete symmetrical plan. An entire new squadron of very powerful ships has been placed in full commission, and we have recruited the largest number of sailors and stokers of any year in modern times. Nearly three times as many men have been recruited in each month, upon an average, of the present year than was the case in the year which preceded it. Before the end of the session I shall submit to parliament proposals for improving the pay of officers and men of the Royal Navy. This, it may be hoped, will further stimulate our already buoyant recruiting. We had not proposed last year to create the sixth battle squadron until 1915. But by various administrative arrangements it will be possible to bring that squadron into existence next year. When I say 'bring it into existence' I mean to bring it into existence fully manned on mobilization, with active service ratings. This will increase the margin of security to which I have on several occasions referred in the House of Commons."

The Oversea Dominions and Naval Defence.

"No harm" continued Mr. Churchill "has been done during the year by plain speaking on naval questions. On the contrary the effect has been extremely good. The Germans are a nation with robust minds and a high sense of honor and fair play. They look at affairs in a practical, military spirit. They like to have facts put squarely before them. They do not want them wrapped up lest they should be shocked by them, and relations between the two countries have steadily improved during the year. They have steadily improved side by side with every evidence of our determination to maintain our naval supremacy. The best way, then, to make these arrangements thoroughly healthy and comfortable is to go right on and put an end to this naval rivalry by proving that we cannot be overtaken. But after all, what has made this year memorable in the history of the navy has been the spontaneous and simultaneous movement of the great dominions of the Crown towards effective participation in Imperial naval defence."

PANAMA CANAL TREATY.

In view of the approaching completion of the Panama Canal and the great interest that Canadians have in the question of tolls charged for the use of the canal, we have decided to publish the full text of the Treaty commonly known as the Hay-Pauncefote Treaty.

Treaty between Great Britain and the United States to facilitate the Construction of a Ship Canal to connect the Atlantic and Pacific Oceans, signed at Washington, November 18th, 1901.

HIS Majesty Edward the Seventh, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King, and Emperor of India, and the United States of America, being desirous to facilitate the construction of a ship canal to connect the Atlantic and Pacific Oceans, by whatever route may be considered expedient, and to that end to remove any objection which may arise out of the Convention of the 19th April, 1850, commonly called the Clayton-Bulwer Treaty, to the construction of such canal under the auspices of the Government of the United States, without impairing the "general principle" of neutralization established in Article VIII of that Convention, have for that purpose appointed as their Plenipotentiaries:

His Majesty Edward the Seventh, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King, and Emperor of India, the Right Honourable Lord Pauncefote, G.C.B., G.C.M.G., His Majesty's Ambassador Extraordinary and Plenipotentiary to the United States; and

The President of the United States, John Hay, Secretary of State of the United States of America;

Who, having communicated to each other their full powers, which were found to be in due and proper form, have agreed upon the following Articles:—

ARTICLE I.

The High Contracting Parties agree that the present Treaty shall supersede the aforementioned Convention of the 19th April, 1850.

ARTICLE II.

It is agreed that the canal may be constructed under the auspices of the Government of the United States, either directly at its own cost, or by gift or loan of money to individuals or Corporations, or through subscription to or purchase of stock or shares, and that, subject to the provisions of the present Treaty, the said Government shall have and enjoy all the rights incident to such construction, as well as the exclusive right of providing for the regulation and management of the canal.

ARTICLE III.

The United States adopts, as the basis of the neutralization of such ship canal, the following Rules, substantially as embodied in the Convention of Constantinople, signed the 28th October, 1888, for the free navigation of the Suez Canal, that is to say:—

1. The canal shall be free and open to the vessels of commerce and of war of all nations observing these Rules, on terms of entire equality, so that there shall be no discrimination against any such nation, or its citizens or subjects, in respect of the conditions or charges of traffic, or otherwise. Such conditions and charges of traffic shall be just and equitable.

2. The canal shall never be blockaded, nor shall any right of war be exercised nor any act of hostility be committed within it. The United States, however, shall be at liberty to maintain such military police along the canal as may be necessary to protect it against lawlessness and disorder.

3. Vessels of war of a belligerent shall not revictual nor take any stores in the canal except so far as may be strictly necessary; and the transit of such vessels through the canal shall be effected with the least possible delay in accordance with the Regulations in force, and with only such intermission as may result from the necessities of the service.

Prizes shall be in all respects subject to the same rules as vessels of war of the belligerents.

4. No belligerent shall embark or disembark troops, munitions of war, or warlike materials in the canal, except in case of accidental hindrance of the transit, and in such case the transit shall be resumed with all possible dispatch.

5. The provisions of this Article shall apply to waters adjacent to the canal, within 3 marine miles of either end. Vessels of war of a belligerent shall not remain in such waters longer than twenty-four hours at any one time except in case of distress, and in such case shall depart as soon as possible; but a vessel of war of one belligerent shall not depart within twenty-four hours from the departure of a vessel of war of the other belligerent.

6. The plant, establishments, buildings, and all works necessary to the construction, maintenance, and operation of the canal shall be deemed to be part thereof, for the purposes of this Treaty, and in time of war, as in time of peace, shall enjoy complete immunity from attack or injury by belligerents, and from acts calculated to impair their usefulness as part of the canal.

ARTICLE IV.

It is agreed that no change of territorial sovereignty or of the international relations of the country or countries traversed by the before-mentioned canal shall affect the general principle of neutralization or the obligation of the High Contracting Parties under the present Treaty.

ARTICLE V.

The present Treaty shall be ratified by His Britannic Majesty and by the President of the United States, by and with the advice and consent of the Senate thereof; and the ratifications shall be exchanged at Washington or at London at the earliest possible time within six months from the date hereof.

In faith whereof the respective Plenipotentiaries have signed this Treaty and thereunto affixed their seals.

Done in duplicate at Washington, the 18th day of November, in the year of Our Lord 1901.

MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present none remain.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Sovereign, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, especially in 1904, when a new Militia Act was passed (ch. 23, 4 Ed. VII.). By it the Militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Members of the King's Privy Council for Canada, Judges, Members of the Executive Councils of Provinces, Deputy Ministers of the Federal and Provincial Governments, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The Active Militia, or any portion thereof, may be ordered to drill or train for a period of not more than 30 days in each year.

The Militia is divided into Active and Reserve Forces. The Active force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service, for the Active Militia, is three years; for the Reserve Militia, such as is prescribed.

RIFLE ASSOCIATIONS.

1. Their formation and government are laid down by regulations promulgated in Militia General Orders 88, dated June 1, 1903.

2. Are of two following classes:—
   (a) *Military*—consists of persons in the Active Militia, and are managed by officers of the respective units.
   (b) *Civilian*—consists of persons in the Reserve Militia, who, while members of any such club or association, are enrolled in such reserve. Are managed under such regulations as may from time to time be issued.

3. Rifle Associations organized under these regulations come under the control of the Department of Militia and Defence.

4. To form an association in a locality requires not less than forty men residing therein, and aged over sixteen years. They must be members of the Active Militia (for Military Associations); or subscribe to the oath of allegiance to His Majesty (for Civilian Associations).

5. A captain is appointed to every Civilian Association, who, with a committee of two members, manage the affairs of the association.

6. The annual subscription to be not less than $1 each member.

7. A member may resign on three months' notice to the captain. The former must return all government property in his possession before the resignation can be accepted.

8. An association may be disbanded for grave irregularities or mismanagement.

9. A member may be expelled by a two-third vote of the association to which he belongs.

10. No man is allowed to belong to more than one association.

11. The District Officer Commanding is charged with the organization, etc., after the necessary papers have been forwarded by him, are recommended at headquarters and approved by the Minister of Militia and Defence.

12. An association maintaining a membership of less than forty must disband.

13. In the event of a national emergency, any person who is or has been duly enrolled in any Rifle Association in Canada shall be deemed to be already enrolled in the Reserve Militia of the Dominion.

14. *Rifle.*—The arm used is the ·303 rifle, either of Government issue or of *bona fide* Government pattern, and bearing the Government viewer's mark.

15. Associations may be supplied with rifles for the use of members on the captain's requisition and on his furnishing a bond signed by three responsible members, for the safety, preservation, and safe return when required to do so, of all rifles issued to them. (*Note.*—Each rifle is valued at $25).

16. Under the conditions of the bond, ten rifles may be issued to each association of forty members, and five additional rifles for every twenty additional members, until the stock of rifles available for this purpose be exhausted.

17. *Ammunition.*—200 rounds a year to each member of a Military Association; 100 rounds to each member of a Civilian Association; free issue.

Extra ammunition as follows:—

Lee-Enfield, per 1,000 ..... $15.00

Miniature Cartridges, per 1,000 ..... 3.00

Regulations, published in pamphlet form, give full details and information as to organizing, etc., rifle associations; officers' duties, returns, also standard rules, instructions as to targets and marking, care of arms, rifle ranges, etc. (issued by Dept. of Militia and Defence).

When demanding ammunition on repayment, the amount should be deposited in a Canadian chartered bank, to the credit of the Receiver General, and the Deposit Receipt annexed to the requisition.

CANADIAN TEAMS TO WIMBLEDON AND BISLEY AND OFFICERS THEREOF FROM 1872 TO 1912.

Canada has always been represented by a team of its best shots at the annual Prize Meeting of the National Rifle Association of England. The first matches were held in 1872, at Wimbledon, but since 1890 they take place at Bisley. The most coveted of all prizes, the Queen's—now the King's prize (£250), was won three times by a Canadian: Pte. T. H. Hayhurst, 13th Regt., Hamilton, Ont., in 1895, Pte. J. S. Perry, 6th Regt., D.C.O.R., Vancouver, B.C., in 1904, and Pte. W. J. Clifford, 10th Regt. (Royal Grenadiers), in 1911, who also won the Prince of Wales' prize. Many other important prizes have also been captured by Canadians. The Kolopore Cup, contested for by the Mother Country and the Colonies was won nine times by the Canadians: in 1872, '75, '81, '84, '89, '96, '05, '06, and '09. Eight men compose the team.

Canada sends to Bisley twenty representatives to take part in the various matches open to them, and these men are selected by competition held at Ottawa under the Dominion of Canada Rifle Association.

The first twenty on the list for the meeting of 1913 are:—

Hay, Capt. A. W., 8th Regt. (Royal Rifles).
Crowe, Capt. C. R., 30th Regt. (Wellington Rifles).
Brown, Sgt. S. S., 19th Battery (C. F. A.)
Perry, Col.-Sgt. S. J., 6th Regt. (D. of C. O. Rifles).
Freeborn, Staff Sgt. J., 13th Royal Rifles.
Jones, Major J. M., 82nd A.L.I. Regt.
Davidson, Sgt. W., 90th Regt. (Winnipeg Rifles).
Parker, Sgt. H. B., 66th Regt. (P.L. Fus.)
Denholm, Sgt. P., 79th Cameron Highlanders of Canada
McDougall, Sgt. R. S., 5th Regt., C.G.A.
Steele, Sgt. J., No. 1 Co., C.A.S. Corps.
Steele, Lt. J. A., No. 1 Co., C.A.S. Corps.
Hogg, T. R., C. R. A.
Rowe, Lt. G. J., 46th Regt.
Bibby, Sgt. F., 77th Regt.
Hatcher, Q.M. Sgt. F., 5th Regt. (C.G.A.)
Russell, Sgt. G. W., G. G. F. Gds.
Morris, Lt. F. H., 46th Regt.
Hawley, Staff-Sgt. C. A., 90th Regt. (Winnipeg Rifles).
Steck, Lt. F. A., 76th Colchester and Hants Rifles.

OFFICERS FROM 1872 TO 1912.

THE CANADIAN RIFLE LEAGUE.

(HEADQUARTERS, OTTAWA, ONT.)

In 1893 the Canadian Rifle League was formed, with Headquarters at Toronto, the moving spirit and chief organizer being Lieut. W. R. Pringle, of the 10th Regiment, Royal Grenadiers. Rifle associations from all over the Dominion affiliated, and a series of simultaneous matches on given dates was inaugurated. In 1895, the Honorable the Minister of Militia and Defence granted free ammunition to the League teams, and with one exception this has been the rule since.

Four matches are held annually over King's ranges (200, 500 and 600 yards), and prizes given to the leading teams. Marksmen's certificates, signed by the Minister of Militia and Defence, and the Chief of the General Staff, are issued as follows:—

For an average of 94 points out of a possible 105, a first-class special certificate; for 90 points, a first-class certificate; for 80 points, a second-class certificate.

The competitions are divided into four series as follows:

THE CANADIAN RIFLE LEAGUE—*Continued.*

The first (military) for teams of city corps of the Active Militia; the second (military) for units other than city corps; the third, or civilian series, for teams of Civilian Rifle Associations; the fourth (sections "A" and "B"), Cadet Corps. The entrance fee per team is $10. Fees for additional teams from the same organization, $5 each. Organizations bringing five new men to the Dominion of Canada Rifle Association Meeting get free entry for one team to the C.M.R. League competitions for the following year.

By Militia Order of June 10, 1903, the C.R. League was placed under the supervision of the Militia Department, Ottawa.

The annual meeting of the League takes place at Ottawa during the D. R. Association competitions.

The leading teams in the competitions of 1912 were as follows:

THE PALMA TROPHY INTERNATIONAL RIFLE-SHOOTING CONTEST.

This trophy of the United States was first put up to competition to the riflemen of the world, at Creedmore, Long Island, in September, 1876, and was incidental to the big Centennial Exhibition. The ranges were 800, 900 and 1,000 yds., 15 shots at each range; teams composed of eight men. It was then won by a team of the United States, against teams representing Ireland, Scotland, Australia and Canada respectively. As a souvenir of the occasion each member of the competing teams was presented with a handsome medal. It was also shot for in following years:—1877, in United States, won by United States; 1901, in United States, won by Canada; 1902, in Canada, won by Great Britain; 1903, in Great Britain, won by United States, but the cup was returned to Great Britain, as barrels of rifles used by the United States had not been authenticated by latter Government; 1907, in Canada, won by the United States; 1912, in Canada, between Canada and the United States: won by latter.

POSTAL INFORMATION

For List of Officials of Post Office Department, see Dominion Government.

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 2 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by postage stamps.

Post Cards.—From any place in Canada to any place in Canada or to the United States or Mexico, 1 cent each. British and Foreign, 2 cents each.

Private Post Cards.—The face of a Private Post Card may be used for advertisements, illustrations, etc., provided that a clear space of at least ¼ inch is left along each of the four sides of the postage stamp, and a clear space 3½ inches long and 1½ inches wide reserved for the address at the lower right hand corner of the card. Private Post Cards for delivery in Canada, U.S. and Mexico, must not exceed a size of 6 inches in length by 3⅝ inches in width, nor be less than 3¼ inches in length by 2¼ inches in width. Cards for other countries must not exceed 5½ inches in length by 3½ inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

Pictorial Private Post Cards which have communications on address side.—Cards which have the back covered by a picture, and one-half of the front to the left of the address space reserved for written communications, are admitted as post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

United Kingdom, Egypt, and British Possessions and Protectorates.—Postage on Letters, 2 cts. per oz.

Foreign Countries, except United States and Mexico.—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

United States and Mexico—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (2 cents) must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries except the United States. Only the deficient postage is collected on over-weight letters for the U.S., which are prepaid one rate.

Express or Special Delivery Letters.—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, a "Special Delivery" stamp of the value of 10 cts. or ordinary postage stamps of the value of 10 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Toronto, Hamilton, London, Brantford, Kingston, Peterboro', Guelph, Stratford, Windsor, Chatham, Berlin, St. Catharines, Sarnia, St. Thomas, Fort William, Port Arthur, Owen Sound, Niagara Falls, Brockville and Ottawa; in Quebec—Montreal, Sherbrooke, St. Hyacinthe, Trois Rivières, Hull and Quebec; in NewBrunswick—St. John, Moncton and Fredericton; in Nova Scotia—Halifax and Sydney; in Manitoba—Winnipeg and Brandon; In Saskatchewan—Regina, Saskatoon, and Moose Jaw; in Alberta—Calgary, Lethbridge and Edmonton; in British Columbia—Victoria, New Westminster and Vancouver; in P. E. Island—Charlottetown. The "Special Delivery" stamp of the value of ten cents may be obtained at any Money Order post office.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of 10 cts., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

International Reply Coupons.—Persons desiring to prepay replies to letters addressed to correspondents in almost all Postal Union Countries, can purchase at any Post Office in this Country coupons exchangeable for postage stamps of the value of 25 centimes (5 cents), at the price of 6 cents.

Registration.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from

the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

The sender of a registered article for delivery in Canada or in any other Postal Union Country, can obtain an acknowledgment of its receipt by the addressee at a cost of 5 cents in addition to the ordinary postage and registration fees.

Indemnity for Registered Articles.

Domestic - (1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

(4) No indemnity is given for an article upon which the registration fee has not been paid.

British and Foreign.—Except in cases beyond control (*e.g.*, tempest, shipwreck, earthquake, and war), the Postal Administrations of all countries and Colonies included in the Postal Union undertake to pay an indemnity of 50 francs ($10) when it is proved to their satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in their custody.

Newspapers and Periodicals.

The general postage rate on newspapers and periodicals *published in Canada* not less frequently than once a month, and addressed to regular subscribers in Canada, Mexico, the United Kingdom, the Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands, Zanzibar, and Newfoundland, and to newsdealers in Canada, is fixed by law at ½ cent per pound. The following exception, however, is to be noted: Newspapers and periodicals published not *more* frequently than once a week and not *less* frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 80 miles in diameter, having as centre either the place of publication or any established Post Office not more than 40 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, under such regulations as the Postmaster-General may from time to time make.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 1 cent per pound or fraction thereof and other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

The postage on *bona fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 1 cent per lb.

British and foreign publications may be posted by newsdealers in Canada to subscribers in Canada at the rate of 1 cent per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service.

Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canadian newspapers sent from the office of publication, and British and foreign newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the United Kingdom, Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Newfoundland, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands or Zanzibar, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for foreign post, 4 lbs. 6 ozs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth; foreign: eighteen inches in any direction, unless in the form of a roll, when a length of 30 inches is allowed provided the diameter does not exceed 4 inches.

Book packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

Books for the use of the blind are free of Canada postage, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

Certain Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries by Book Post:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications) engravings, lithographs, photographs (when not on glass or in cases containing glass, official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers, printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

The following articles are subject to the rate of 2 cents for the first 4 ozs. or fraction thereof, and one cent for each additional 4 ozs.:—Seeds, cuttings (but not cut flowers), roots, bedding plants, scions or grafts.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

No packet of miscellaneous matter can be transmitted by mail if it exceeds 5 lbs. in weight, 30 inches in length or 12 inches in width or depth, nor may the combined length and girth of any packet exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on 3rd and 4th class matter, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

British and Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 18 inches in any direction unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs. 6 ozs.

Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 3 lbs. in weight, except samples of tea, which must not exceed 8 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids, oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

Samples for United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids, oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

Fourth Class Matter.—(Merchandise

Postage rate 1 cent per ounce or fraction thereof, to be prepaid by postage stamp. This class comprises miscellaneous articles of merchandise, (including seeds, bulbs, etc., to United States) addressed to any destination within the Dominion or the United States. Fourth class matter must be so packed or put up as to be open to examination of contents and must not exceed 5 lbs. in weight, when intended for places in the Dominion, or 4 lbs. 6 ozs. when intended for the United States. The limit of size is 30 inches in length by 1 foot in width or depth, but the combined length and girth of any packet must in no case exceed 6 feet. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty. The registration charge on 4th class matter is 5 cents in addition to postage.

A packet of 4th class matter may contain invoices and accounts, provided they relate exclusively to the contents of such packet; it is also permitted to enclose a card or slip of paper giving in a brief manner necessary directions for the identification or treatment of the article or articles contained in the packet. Care must be taken not to abuse this privilege by converting such notes or marks, designed solely for the facilitation of business between the sender and the addressee, into what might properly be called correspondence. A packet of 4th class matter containing a letter or any writing intended to serve the purpose of a letter in the ordinary sense will become liable to letter postage, and the sender will incur the penalty provided by law.

When several separate articles are enclosed in a packet of 4th class matter, there is no objection to each bearing a distinguishing number, so as to enable the sender to give directions by letter (sent of course separately and duly prepaid) respecting the several articles which the packet contains.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations:—

1. Every Parcel must be fully prepaid by postage stamps.

2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to any country other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth.

3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.

4. All Parcels must be securely and substantially packed and closed.

5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.

6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.

7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed.*

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

Prohibited Articles.

All explosive, dangerous or destructive substances, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotterics or other fraudulent schemes.

Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp.* When stamps are moistened the gum is apt to be removed.

* The exchange of Money Orders with the countries and British Colonies distinguished by an asterisk (*) is not direct. Money Orders payable in those countries are subject, therefore, to a small abatement on payment. The charges made by the British Post Office for re-advising Orders are:—3d. for sums not exceeding £5, and 3d. for each £5 (or fraction of £5) additional: equal to 6 cents for each $24.35 or fraction thereof.

‡ The exchange with Montenegro is *viâ* Austria, where a deduction will be made of 20 hellers up to 40 crowns, 40 hellers from 40 to 100 crowns, 80 hellers from 100 to 300 crowns and 120 hellers from 300 to 490 crowns.

‖ The exchange with the countries marked thus (‖) is through Belgium, and orders will be subject to an abatement of ¼ of one per cent. on the amount of each order.

¶ The exchange with Finland is through Sweden, where a deduction of ½ per cent. is made from each order.

§ The exchange with countries marked thus (§) is *via* Germany. ¼ of one per cent. is deducted from the amount of each order on Turkey.

**Deduction will be made in Queensland of 3d. for each £5 or fraction thereof.

‡‡Deduction will be made by New South Wales of 3d. for each £5 or fraction thereof.

Money Orders on the above countries are drawn in Canada Currency. Tables showing the sums payable in other countries, where the money is of a different denomination, will be found below.

POST OFFICES AND RAILROAD STATIONS

IN THE DOMINION OF CANADA.

*The Offices printed in Italics are authorized to issue and pay Money Orders and Postal Notes. The Offices marked * are Savings Bank Offices. Capital letters on right of the Electoral District column indicate the several Provinces of the Dominion, thus:—O, Ontario; Q, Quebec; N S, Nova Scotia; N B, New Brunswick; P E I, Prince Edward Island; M, Manitoba; B C, British Columbia; Alta, Alberta; Sask, Saskatchewan.*

The numbers and names placed opposite every place indicate the Railroad or Steamship line on which the place or nearest railway station is situated. See list of Railroads and Steamboats on pages 176 to 181.

In the foregoing list the asterisk denotes members of the British House of Lords entitled to the designation of "Right Honourable." Barons Aylmer and de Blaquière are of the peerage of Ireland and not members of the House of Lords. The title of Baron de Longueuil existed prior to the Treaty of Paris (1763), and was duly recognized by Queen Victoria pursuant to that treaty. Sir Wilfrid Laurier, Sir Richard Cartwright, Sir Charles Tupper, and Sir Charles Fitzpatrick are styled Right Honourable as members of the English Privy Council. Members of the Canadian Privy Council are designated above by a † and have also the title of Honourable. Judges are distinguished by a ‡ and are also by courtesy or custom Honourable. The English practice is to give the title of Knight Bachelor to members of the Judicial bench, and the Attorney and Solicitor-Generals. *** Senator; hence, honourable.

THE IMPERIAL SERVICE ORDER.

This civil order of distinction was instituted by King Edward VII, August 8, 1902, to more fully recognize the faithful and meritorious services rendered by members of the Civil Services of the various parts of the Empire. The following is a synopsis of the statutes relating thereto :—

(*a*) Name.—The Imperial Service Order.

(*b*) Consists of the Sovereign, the Prince of Wales, and such Companions as may be appointed.

(*c*) Only members of the administrative or clerical branches of Civil Services are eligible to Companionships.

(*d*) Number of Companions.—Limited to 425, of whom 250 for the home Civil Service and 175 for Civil Services of Colonies and Protectorates.

(*e*) Eligibility.—At least twenty-five years' meritorious service. In Colonies or Protectorates recognized as unhealthy, it is reduced to sixteen years. The periods are not compulsory in special cases of *eminently* meritorious service.

(*f*) Description of decoration.—A badge or medallion of gold and enamel, bearing on one side the Imperial and Royal Cypher, and on the reverse "For Faithful Service," both in dark blue enamel on a plaque or shield of Gold, surrounded by a wreath of laurel, surmounted by the Imperial Crown.

(*g*) Decoration to be worn on left breast suspended by a ribbon one inch wide.

(*h*) Names of those upon whom the decoration is conferred will be published in the *London Gazette*.

(*i*) Companions have the privilege of adding the letters "I.S.O." after their names.

(*j*) Members of this order are not deprived of eligibility to other orders of knighthood, and *vice versa*.

THE IMPERIAL SERVICE MEDAL.

It is also provided that members not eligible for companionships in the Imperial Service Order may, on retirement after service of twenty-five years or sixteen years, as above explained, receive the "Imperial Service Medal," which is of silver and of a design similar to that of the badge of Companions of the Imperial Service Order.

The following Canadians have been made Companions of that Order :—

ORDERS OF KNIGHTHOOD, &c.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1399, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1818, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen unconnected with any order who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name. They wear no insignia, and rank immediately after Knights Commander of the Victorian Order.

It follows that members of any order of Knighthood may be entitled to several prefixes and affixes, as: Field Marshal The Rt. Hon. Earl Roberts of Kandahar, Pretoria, and Waterford, K.G., K.P., G.C.B., G.C.S.I., G.C.I.E., V.C.; The Rt. Hon. Sir Wilfrid Laurier, G.C.M.G.; The Hon. Sir C. Tupper, Bart, G.C.M.G., C.B.

CANADIAN NEWSPAPER AND MAGAZINE DIRECTORY.

COPYRIGHT IN CANADA.

The law of copyright in Canada is to be found in the Revised Statutes of Canada, 1906, Chapter 70, which embodies the provisions of the original Act. Its leading features may be briefly summarized as follows :—

Any person domiciled in Canada, or in any part of the British Possessions, or any citizen of any country which has an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart or musical composition, or of any original painting, drawing, statue, sculpture or photograph, or who invents, designs, etches, engraves or causes to be engraved, etched, or made from his own design, any print or engraving, and the legal representatives of such person or citizen, shall have the exclusive right to print, reprint, publish, reproduce and sell such works or compositions in whole or in part, and of allowing translations to be printed, reprinted or sold. Sec. 4.

Exception is made as to immoral, licentious, irreligious, treasonable and seditious literary, scientific or artistic work which is not the legitimate subject of such registration or copyright. Sec. 7.

The right of copyright endures for twenty-eight years from the time of recording the copyright. After the expiration of twenty-eight years the copyright may be extended for a further term of fourteen years to the author if he is alive, or if he is dead, to his widow or child or children, but in such case the title of the work secured must be a second time registered and all other conditions fulfilled which are required in regard to original copyrights, and the author or proprietor must publish a notice of such registration once in the *Canada Gazette*. Secs. 19, 20 and 48.

In no case shall the said sole and exclusive right and liberty in Canada continue to exist after it has expired elsewhere. Sec. 5.

A subsequent edition need not be registered unless it contains very important alterations or additions. Sec. 13.

The conditions for obtaining such copyright are :—

(1) That such literary, scientific or artistic work shall be printed and published, or reprinted and republished in Canada, or in the case of works of art, that they shall be produced or reproduced in Canada. Sec. 49.

(2) In the case of paintings, drawings, statuary and sculpture, a written description must be furnished to the Minister of Agriculture. In the case of books, maps, charts, musical compositions, photographs, prints, cuts and engravings, three copies must be furnished to the Minister, one of which is deposited in the library of the Parliament of Canada, and one in the British Museum. Secs. 11 and 12.

(3) The statutory fee must be paid to the Minister of Agriculture. Sec. 24.

(4) There must be inserted in the several copies of every edition on the title page, or on the page immediately following, if it is a book, or if it is a map, chart, musical composition, print, cut or engraving, or photograph, there must be impressed on the face thereof, or if it is a volume of maps, charts, music, engravings or photographs, upon the title page or frontispiece thereof the word, "Copyright, Canada, 19.. (year of registration), by (name of copyright proprietor)," but as regards paintings, drawings, statuary, and sculpture, the signature of the artist is deemed a sufficient notice of such proprietorship. Sec. 14.

A temporary copyright may be obtained when a literary work intended to be published in pamphlet or book form is being first published in separate articles in a newspaper or periodical. The title of the manuscript and a short analysis of the work must be deposited at the Department, and every separate article so published must be preceded by the words, "Registered in accordance with the Copyright Act." Sec. 9.

Temporary copyright secures to the proprietor all the privileges granted by the Copyright Act during the time of preliminary publication. Before being published, however, in book form, the work must be registered. Three copies of the work must be deposited with the application form and the fee.

An interim copyright may be obtained by the author of any literary, scientific or artistic work, or by his legal representatives pending the publication or republication thereof in Canada, by depositing at the Department a copy of the title or designation of such work intended for publication or republication in Canada, but such interim registration does not endure for more than one month from the date of the original publication elsewhere within which period the work must be printed or reprinted and published in Canada. Sec. 15.

The following fees are payable to the Minister of Agriculture :—On registering a copyright $1.00. On registering an interim copyright 50 cents. On registering a temporary copyright 50 cents. On registering an assignment $1.00. Certified copy of registration 50 cents. Registering any decision of a court of justice, for every folio 50 cents, etc. Sec. 24.

An aotion for the recovery of any penalty provided by the Copyright Act must be commenced within two years after the cause of action arises. Sec. 44.

If a book, as to which there is subsisting copyright, under the Copyright Act, has been lawfully published in any part of the British Dominions other than Canada, and if the author has lawfully granted a license to reproduce in Canada an edition or editions of such book designed for sale only in Canada, the Minister may prohibit the importation into Canada of any

copies of such book, except with the written consent of the licensee, provided that two copies may be specially imported for the *bona fide* use of any public free library or any university or college library, or for any library of any duly incorporated institution or society for the use of its members. Sec. 28.

An assignment of a copyright, whether as to the whole interest or a part thereof, must be made by an instrument in writing made in duplicate and registered at the department. Both duplicates must be sent to the Department of Agriculture with the statutory fee. One is retained at the department and the other is returned with a certificate of registration to the person depositing it. Sec. 17.

International copyright, regulated by the Berne Convention, 1886, modified by the Act of Paris, 1896, is binding in the following countries:—Great Britain, the British Dominions, Germany, Russia, Belgium, Spain, France, Haiti, Italy, Switzerland, Tunis, Luxembourg, Monaco, Denmark, Japan and Sweden. An author belonging to any one of the countries named has the same rights in the other countries as the laws of his own country allow him. An author not belonging to one of the countries, who publishes for the first time in one of these countries, also has these rights. An author has the exclusive right of authorizing translations of his work during the entire period of his copyright in the country of origin of the work, but unless he has published such a translation within ten years the exclusive right ceases to exist. Serial stories and short stories are protected. Other articles are protected if the periodical bears upon it a general prohibition against translation; but political articles, news of the day and miscellaneous articles are not protected.

Under the Berne Convention the subject or citizen of a Union Country enjoys in Canada the same copyright protection as in his own country.

As to the existing arrangements between Great Britain and the United States with regard to the rights of citizens of each country to obtain copyrights in the other country, it is understood that a United States citizen can obtain copyright in Great Britain by simply exposing for sale a certain number of copies of his work on the day of publication within the British Empire, whereas the British citizen who desires to obtain a copyright in the United States has to have the type of his book set up in the United States and the book manufactured there.

Both the British Empire and the United States require first publication. Simultaneous publication in another country does not invalidate the copyright. Publications on the same day are treated as simultaneous.

The Rules and Forms respecting applications for copyright may be obtained at the Department of Agriculture, Copyright and Trade Marks Branch.

PATENTS IN CANADA.

The Patent Office is a Branch of the Department of Agriculture, and the Minister of Agriculture for the time being is the Commissioner of Patents.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An Inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the Inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration be means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further renewal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but unless same duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding $100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding $200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far, with or without plans, of his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees are payable:—Full fee on patent for 18 years, $60.00; partial fee for 12 years, $40.00; partial fee for 6 years, $20.00; for further term of 12 years, $40.00; for further term of 6 years, $20.00; on filing caveat, $5.00; on registering assignment patent, $2.00; for copy of patent, with specification, $4.00.

The disbursements for filing an application in Great Britain are $25.00; France, $20.00; Germany, $5.00, and $7.50 before issuing patent; Australia, $20; Russia, $75.00; British India, $20.00. The German and French patents cover not only Germany and France but also their colonies. The Russian patent extends to all of the Russian possessions.

The disbursements for filing an application in the Australian States, namely, Queensland, Victoria, New South Wales, South Australia, Western Australia and Tasmania are $5.00 on filing of the application, $10.00 on allowance of same and $25.00 for preparation of the sealing of patent; New Zealand, $20.00; Mexico, $75.00; Natal, $50.00; Japan, $75.00; Jamaica, $150.00.

THE BRITISH GOVERNMENT.

The Asquith Administration.

There were a number of important changes in the Asquith Ministry in consequence of the resignations of Lord Loreburn, Lord Chancellor; Lord Carrington, Lord Privy Seal; Lord Pentland, Secretary for Scotland; and the Master of Elibank, Patronage Secretary to the Treasury. Lord Haldane was appointed Lord Chancellor, and was succeeded at the War Office by Colonel Seely. The Marquis of Crewe succeeded as Lord Privy Seal; the Right Honorable Thomas McKinnon Wood as the Secretary for Scotland; and Mr. Percy Illingworth succeeded the Master of Elibank as the Patronage Secretary of the Treasury.

Prime Minister and First Lord of the Treasury—Rt. Hon. Herbert Asquith. (Salary, £5,000).

Lord Chancellor—Viscount Haldane (£10,000).

Comptroller of the Household—Earl of Liverpool (£700).
Vice-Chamberlain—Mr. G. Howard (£700).

The Office of Prime Minister.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prorogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Roseberry the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

THE GOVERNMENT DEPARTMENTS.

The Treasury.

Chancellor of the Exchequer—Rt. Hon. D. Lloyd-George.

First Lord of the Treasury—Rt. Hon. Herbert Asquith.

Financial Secretary to the Treasury—Rt. Hon. C. F. G. Masterman.

Patronage Secretary to the Treasury—Mr. Percy Illingworth.

Junior Lords of the Treasury—Mr. W. Wedgwood Benn, Mr. J. W. Gulland, Mr. William Jones, Hon. Fred. Guest, Mr. Henry Webb.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the

office is usually held by the Leader of the House of Commons. The Patronage Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

THE FOREIGN OFFICE.

Secretary of State for Foreign Affairs—Sir Edward Grey.
Under Secretary—Mr. F. D. Acland.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

THE COLONIAL OFFICE.

Secretary of State for the Colonies—Rt. Hon. Lewis Harcourt.
Under Secretary—Lord Emmott.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 19 7, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

THE INDIA OFFICE.

Secretary of State for India—Marquis of Crewe.
Under Secretary—Mr. E. S. Montagu.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

THE HOME OFFICE.

Secretary of State for Home Affairs—Rt. Hon. Reginald McKenna.
Under Secretary—Mr. Ellis Griffith.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

THE WAR OFFICE.

Secretary of State for War—Colonel Seely.
Under Secretary—Mr. H. J. Tennant.
Financial Secretary to the War Office—Mr. Harold Baker.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

THE ADMIRALTY.

First Lord of the Admiralty—Rt. Hon. Winston S. Churchill.
Secretary to the Admiralty—Dr. T. J. Macnamara.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

THE BOARD OF EDUCATION.

President—Rt. Hon. J. A. Pease.
Secretary—Mr. C. P. Trevelyan.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

THE LOCAL GOVERNMENT BOARD.

President of the Local Government Board—Rt. Hon. John Burns.
Parliamentary Secretary to the Local Government Board—Mr. J. H. Lewis.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the

Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

THE BOARD OF TRADE.

President of the Board of Trade—Rt. Hon. Sydney Buxton.

Parliamentary Secretary to the Board of Trade—Mr. J. M. Robertson.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

THE POST OFFICE.

Postmaster-General—Rt. Hon. H. L. Samuel.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

THE BOARD OF AGRICULTURE.

President of the Board of Agriculture—Rt. Hon. Walter Runciman.

Parliamentary Secretary to the Board of Agriculture—Lord Lucas.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

OFFICE OF PUBLIC WORKS AND BUILDINGS.

First Commissioner of Works—Earl Beauchamp.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

DEPARTMENT OF THE LORD CHAMBERLAIN.

Lord Chamberlain—Viscount Althorp.

Comptroller of the Household—Lord Strachey.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

IRISH AND SCOTCH DEPARTMENTS.

Chief Secretary for Ireland—Rt. Hon. Augustine Birrell.

Sec'y for Scotland—Rt. Hon. Thomas McKinnon Wood.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

Officers of the House of Commons.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was again unanimously re-elected on the opening of the new parliament in February, 1910. Mr. J. H. Whitley, in October, 1911, became Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ilbert remains Clerk of the House (salary £1,800); Henry David Erskine, Sergeant-at-Arms (salary £1,000); and the Venerable A. B. O. Wilberforce, Speaker's Chaplain, with a salary of £400.

MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834. The present pensioners are Lord Cross, since 1887, and Lord George Hamilton since 1892 in the first class; Mr. Henry Chaplin, Sir John Gorst, Lord Balfour of Burleigh, and Mr. Gerald Balfour in the second class. No new pensions have been granted since the Balfour Government went out of office in December, 1905.

THE BRITISH PARLIAMENT.

The British House of Commons, since the Franchise and Redistribution Acts of 1884-5, consists of 670 Members. Geographically, the seats held by these Members are distributed as follows:—

England		465
London	61	
Boroughs	165	
Counties	234	
Universities	5	
Wales		30
Boroughs	11	
Counties	19	
Scotland		72
Burghs	31	
Counties	39	
Universities	2	
Ireland		103
Boroughs	16	
Counties	85	
Universities	2	
Total		670

Qualifications for the Parliamentary franchise are various, but generally speaking the franchise is on a democratic basis; so much so, that it is possible for every man who is a householder, and who has been in occupation for a year previous to the enrolment of electors, to vote at a Parliamentary election. There is also a lodger franchise; but in this case the franchise is based upon the rental value of the rooms. It is also governed by the conditions of the tenancy, and but comparatively few men qualify for the lodger franchise, which, unlike the householder franchise, must be claimed every year. A decision in the law courts, Kent *v.* Fittal, 1905, has brought into prominence the occupier franchise, which is granted to men renting rooms over which they have complete control. These men are not lodgers, and they hold the franchise on the same basis as the householder. Tens of thousands of working men voters were added to the electoral lists in 1906 as a result of this decision, but more recent decisions have considerably curtailed the numbers of men admitted to this form of the franchise.

The electoral rolls are compiled by the local overseers of the poor, as most of the franchises are based on the payment of the poor rate. The rolls are then gone over in open court by the revising barristers, who hold their sessions every year, as a new list of voters is compiled each year. In England the new register comes into effect on December 1st.

At the general election in December, 1910, which was taken on the same register as the election in January, 1910, out of the 7,705,717 voters on the register, 6,189,369 went to the polls; 3,269,770 voting for Liberal, Labor and Nationalist candidates, and 2,919,599 for Conservatives and Unionists.

On an old register, it is generally conceded by both parties that the Liberals suffer more than the Conservatives, on account of the disfranchisement of an undue proportion of working class Liberal voters through removal out of the constituencies.

In the Budget for 1911, which was introduced in the House of Commons on May 16th, provision was made for the payment of salaries of £400 to members of Parliament. The Liberal party had long been pledged to this reform, but the immediate occasion for the change was the embarrassment caused to the Labor party through the decision of the House of Lords in the case of Osborne versus the Amalgamated Society of Railway Servants, that Trade Unions may not legally use their funds for financing Parliamentary Representation. Previous to 1911 Members of the House of Commons received neither salaries nor indemnities. There are no mileage allowances or railway privileges, and Members do not enjoy the privilege of franking their correspondence through the mails.

Parliamentary candidates pay all the costs of elections, including the returning officer's fees and expenses. Deposits to cover these outlays must be made to the returning officer before a candidate can go to the poll. In the counties, the High Sheriffs, or their deputies, act as returning officers. In the self-contained boroughs—that is, in the boroughs which return Members, and are not part of a county division—the Mayor acts as returning officer.

Elections are not held all on one day. A general election usually extends over a month, and, if an elector is qualified in several constituencies, he can vote in each. Only freeholder voters can exercise the franchise in this way, as residence is not a necessary qualification for a freehold vote.

The chief issue in the election of December, 1910, was again the veto power of the House of Lords. The election of January, 1910, gave a popular majority against the veto, but the death of King Edward in April, so shortly after the assembling of the newly elected Parliament, brought about a truce, and a conference of the leaders of the Liberal and Conservative parties was held through the summer of 1910. The first meeting of the conference was held on June 17th, and the failure of the conferees to come to any agreement was announced in November 10. The meetings were in secret, and no report of proceedings has as yet been made public. After this failure, Parliament was dissolved on November 29, and the abolition of the veto of the House of Lords was placed first on the programme of the Liberal party in the elections, the first pollings of which took place on December 3rd, and the last on December 19th. Other questions at issue were social reform, tariff reform, woman's suffrage, and Home Rule for Ireland. The Parliament bill—the Lords' Veto Act—was introduced in the new House of Commons on February 21st, 1911; was sent to the House of Lords after third reading on May 15th; passed the House of Lords on August 10th, and received the Royal Assent on August 18th.

At the time of the dissolution on November 29th, parties in the House of Commons which had been elected in January, 1910, stood as follows:—

Liberals	275	
Labor Party	40	397
Nationalists	72	
Independent Nationalists	10	
Unionists		273
Government majority		124

The General Elections of December, 1910, effected very little change in the political complexion of the House of Commons. At the completion of the elections the parties stood as follows—

Liberals	272	
Labor Party	42	398
Nationalists	76	
Independent Nationalists	8	
Unionists		272
Total		670
Government majority		126

Mr. Speaker Lowther was of the Tory party when he was elected to the Chair in 1905. As has now long been the usage at Westminster, he was re-elected at the opening of the Parliament in 1906, again in 1910, and again when Parliament assembled on January 31st, 1911. In the foregoing enumeration the Speaker, although he takes no sides in the House of Commons is reckoned as belonging to the Conservative party.

The only parties whose strength was distinctly increased at the general election were the Labor Party which gained two members, and the Irish Nationalists. These two parties hold the balance of power in the present Parliament.

Between the General Election of December, 1910, and the reassembling of Parliament for the winter session of 1912, the Asquith Government, as a result of the by-elections had gained one seat—that at Hanley—from the Labor Party, and had lost eight seats to the Conservatives. The seats lost were Cheltenham, Oldham, South Somerset, North Ayrshire, South Manchester, Crewe, North West Manchester and Midlothian. The last named had been continuously a Liberal seat since 1880, when it was carried by Gladstone. It was lost to the Liberals in September, 1912, owing to a candidate being nominated by the Labor Party. Crewe was lost to the Liberal Party owing to a similar cause. On October 8th, 1912, when the House of Commons reassembled, the position of the parties were:—

Liberals	264	
Labor	41	
Nationalists	76	670
Independent Nationalists	8	
Unionists	281	

The number of members of the House of Lords on January 15th, 1912, was 645, made up as follows:—

Hereditary Peers of the United Kingdom	570
Life Peers	5
Archbishops and Bishops	26
Scottish Representative Peers	16
Irish Representative Peers	28

Of the 570 peers of the United Kingdom 11 were then minors, and there was one case of contested succession, leaving the voting strength of the House of Lords when Parliament opened, 633.

Only in so far as concerns Scotland is the House of Lords affected by a general election. After a dissolution of Parliament, the Scotch Lords meet at Holyrood Palace, and in accordance with the terms of the Act of Union elect sixteen peers to represent them in the House of Lords. At the election in December, 1910, the sixteen peers chosen to represent Scotland were all of the Unionist Party. At the final division in the House of Lords on the Veto Act, which was taken on the question of whether or not the peers would adhere to the amendments to the Bill, concurrence in which was refused by the House of Commons, 131 peers voted with the Government and 114 voted against. These 131 votes did not, however, represent the Liberal strength in the House of Lords, for a number of the peers and eleven of the bishops voted with the Government in order to avoid the swamping of the House of Lords by the creation of Liberal peers. "I did not vote for the Bill," said the Archbishop of York on this occasion, "I voted against the creation of from 450 to 500 new peers." These votes and those of 30 Unionist peers gave the Government in this final division a majority of 17.

THE POPULATION OF THE UNITED KINGDOM.

The census of the inhabitants of England and Wales, Scotland and Ireland, the Isle of Man and the Channel Islands is taken in the first year of each decade. The enumeration is carried out by means of household schedules—a plan first adopted in 1841. In taking the census for England and Wales in 1911 the enumerators worked under the direction of the 2,009 local registrars, and these again under the direction of the 635 superintendent registrars. The 2,009 registration districts were subdivided into 35,000 enumeration districts.

By means of this machinery the total number of persons returned as living in England and Wales at midnight of Sunday, April 2nd, 1911, was 36,075,269. For Scotland, the total population was returned as 4,759,521; for Ireland, 4,381,951; and for the islands of the British seas—the Isle of Man and the Channel Islands—148,934, making a total population for the United Kingdom of 45,365,675. The following table gives the actual population and the rate of increase in England and Wales for the last 110 years:—

Year.	Population.	Rate of Increase.
1801	8,892,536	.....
1811	10,164,256	14·10
1821	12,000,236	18·06
1831	13,896,797	15·80
1841	15,914,148	14·27
1851	17,927,609	12·65
1861	20,066,224	11·90
1871	22,712,266	13·21
1881	25,974,439	14·36
1891	29,002,525	11·65
1901	32,527,843	12·17
1911	36,075,269	10·91

During the 110 years it will thus be seen that the population of England and Wales has more than quadrupled, and that, roughly speaking, there are now four persons to every one inhabiting the country at the opening of the nineteenth century.

Ireland is the only part of the United Kingdom in which a religious census is taken. According to the returns of the enumerators at the census of 1911, out of the 4,381,951 inhabitants of Ireland, 3,238,056 are of the Roman Catholic Church; 575,489 are of the Episcopal Church; 439,876 are Presbyterians, and 61,806 are Methodists. In the decrease of population, the Roman Catholics have lost the most, both in actual numbers and proportionately. The loss of the Roman Catholics is reckoned at 2·1 per cent.; of the Episcopalians, 1 per cent.; of the Presbyterians, 0·8 per cent.; and of the Methodists, 0·3 per cent. Of the total population the percentages are:—

Roman Catholics	73·9 per cent.
Episcopalians	13·1 "
Presbyterians	10·0 "
Methodists	1·4 "
Scattering	1·6 "

Population of the Oversea Dominions.

The Commonwealth of Australia, the Dominion of New Zealand, and the Union of South Africa took their census in 1911. The figures for Australia were:—

	Males.	Females.	Total.
New South Wales	857,719	790,491	1,648,210
Victoria	654,523	660,477	1,315,000
Queensland	329,043	276,000	605,043
South Australia	207,358	201,200	408,558
Western Australia	165,373	120,613	285,986
North Australia	2,748	562	3,310
Tasmania	97,336	93,562	190,878

Total population for the Dominion of Australia, 4,455,005. The population of Australia in 1901 was 3,773,801.

The population of the Dominion of New Zealand in 1911 was 531,910 males, 476,658 females; total 1,008,468.

For the Union of South Africa the total population of all races was 5,938,499, as compared with 5,185,824 in 1904. Of these there are 1,278,025 Europeans, compared with 1,116,806; and 4,061,082 natives, as compared with 3,495,104. The other colored inhabitants number 619,392, as compared with 563,914. The feature of the returns for South Africa is the shrinkage in the population of the coast towns with the exception of Durban, and the great growth of Johannesburg, the Reef and Pretoria.

LEGAL AND JUDICIARY.

Supreme Court of the Dominion.

The Supreme Court, as a high Court of Appeal constituted by Dominion Statute (see R. S. C. (1906), Chap. 139), is composed of a Chief Justice and five Puisne Judges, and has appellate, civil and criminal jurisdiction within and throughout the Dominion of Canada. The Judges reside at Ottawa, where the Supreme Court holds annually three Sessions—the first beginning on the third Tuesday in February, the second on the first Tuesday in May, and the third on the first Tuesday in October.

Right Hon. Sir Charles Fitzpatrick, Chief Justice, P.C., G.C.M.G.	$10,000
Hon. Sir Louis Davies, Puisne Judge, K.C.M.G.	9,000
Hon. J. Idington, Puisne Judge	9,000
Hon. L. P. Duff, Puisne Judge	9,000
Hon. F. A. Anglin, Puisne Judge	9,000
Hon. L. P. Brodeur	9,000
E. R. Cameron, K.C., Registrar	4,000
C. H. Masters, K.C., Reporter	2,600
L. H. Coutlee, K.C., Assistant Reporter	2,300

The Exchequer Court of the Dominion.

The Exchequer Court, also constituted under a Dominion Statute (see R. S. C. (1906), Chap. 140), is presided over by one Judge and has original exclusive jurisdiction in all claims, suits or actions against the Crown. It has concurrent jurisdiction in relation to revenue cases and the enforcement of penalties, in cases in which it is sought at the instance of the Attorney-General of Canada to impeach or annul any patent of invention, in copyright trade mark or industrial design cases, in patent cases or respecting lands; cases against Crown officers for anything done or omitted to be done as such officer, and all actions or suits in which the Crown is plaintiff or petitioner in cases of Receiver for or sale of insolvent Railways. The Exchequer Court is also a Prize Court in time of war.

Hon. W. G. P. Cassels, Judge of the Court	$8,000
L. A. Audette, Esq., K.C., Registrar	3,450
Chas. Morse, Esq., K.C., D.C.L., Reporter and Dep'y Registrar	2,650

Admiralty Division.

In pursuance of the powers given by "The Colonial Courts of Admiralty Act, 1890," the Exchequer Court of Canada is declared a Colonial Court of Admiralty. (See R. S. C. (1906), Chap. 141.)

The Exchequer Court has the jurisdiction conferred by the Colonial Courts of Admiralty Act throughout Canada and the waters thereof, whether tidal or non-tidal, and may enforce all rights and remedies in all matters (including cases of contract and tort and proceedings *in rem* and *in personam*) arising out of or connected with navigation, shipping, trade or commerce, which may be had or enforced in any Colonial Court of Admiralty under the said Act.

Admiralty business may be transacted at the office of the Exchequer Court at Ottawa, or at the local registry offices.

There are Admiralty Districts presided over by Local Judges in Admiralty as follows:—

(*a*) The Province of Ontario under the name of the Toronto Admiralty District with a Registry at the City of Toronto.

(*b*) The Province of Quebec with Registry at the City of Quebec.

(*c*) The Province of Nova Scotia with Registry at the City of Halifax.

(*d*) The Province of New Brunswick with Registry at the City of St. John.

(*e*) The Province of British Columbia with Registry at the City of Victoria.

(*f*) The Province of Prince Edward Island with Registry at the City of Charlottetown.

(*g*) The Yukon Territory with Registry at the City of Dawson.

OFFICERS OF THE TORONTO ADMIRALTY DISTRICT.

Local Judge, The Hon. J. T. Garrow.
Registrar, John Bruce.
Marshal, R. S. Stonehouse.

Local Judges of the Admiralty are within their Admiralty District ranked as Judges of the Exchequer Court.

The Supreme Court of Ontario.

Constituted under the Law Reform Act, 1909.

This Court consists of two branches (*a*) The Appellate Division, (*b*) The High Court Division.

The Appellate Division is divided into as many Divisional Courts as is necessary for the proper dispatch of business, there being not less than two of such Divisional Courts, each consisting of five Judges, and numbered consecutively from one onward.

The first Divisional Court consists of the Chief Justice of Ontario and the other Judges of the Appellate Court. The Judges of the Supreme Court are to appoint the second Divisional Court for the next calendar year, such selection to be made in December not later than the second Monday of the month.

Whenever the volume of business in the Appellate Division shall require an additional Divisional Court or Courts the Supreme Court Judges shall select the Judges to sit in such Divisions. The first and second Divisional Courts being permanent Divisional Courts, the others being temporary Divisional Courts.

The appeals to a Divisional Court may be heard and disposed of by a Court of four Judges except as to appeals under the Ontario Controverted Election Act, or to cases and matters which come before the Court under the criminal code, when the Court shall consist of five Judges.

The Divisional Courts shall sit at least monthly, subject to such alterations as may be made by the Judges. Divisional Courts one and two shall sit on alternative weeks; the Court may sit during long vacation of the High Court Division.

The Appellate Division shall not be deemed to be a new Court but only a continuation of the Court of Appeal which was constituted for the hearing of appeals from the High Court of Justice; the Ontario Railway and Municipal Board, Official Arbitrators, Drainage Referees, constituted by the Lieutenant-Governor-in-Council; by Judges and by Police Magistrates in criminal matters.

From judgments of this Court an appeal lies to the Supreme Court of Canada as provided in the Dominion Act constituting the latter, or in cases where the amount involved exceeds $4,000 or otherwise falls within the Ontario Act of 1910, an appeal may be taken direct to the Privy Council.

The High Court Division shall be deemed a continuation of the High Court, the jurisdiction extending to all manner of actions and causes, criminal and civil, real, personal and mixed, within Ontario, and it may proceed

in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may and shall hear and determine all issues of law, and also (with or without a jury as provided by law) determine all issues of fact, and give judgment, and award execution thereon, as might on the 5th day of December, 1895, be done in His Majesty's Court of King's Bench, Common Bench or in matters which relate to the King's Revenue (including the condemnation of contraband or smuggled goods) as may be done by His Majesty's Court of Exchequer in England, and also the like jurisdiction as the Court of Chancery in England, on the 4th day of March, 1837, in cases of fraud, accident, trusts, executors, administrators, co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, and may decree the issue, repeal, or voidance of letters patent, and generally the like powers which the Court of Chancery in England possessed on the 10th day of June, 1857, to administer justice in all cases in which there is no adequate remedy at law.

LAW CIRCUITS.—*Sittings for Hearing o Actions.* Sittings for trials are held twice each year in each County. —In the Counties of Wentworth, Carleton and Middlesex, there is held an additional such Court every winter. The sittings for hearing of actions may, in the discretion of the Judges, be held separate and apart from the Courts of Oyer and Terminer, and General Gaol Delivery. In the City of Toronto the sittings for trial of actions without a jury are now practically continuous from 15th September to the 1st of next July, excepting Christmas vacation, and actions can be set down as soon as ready for trial.

The Courts in each Circuit are presided over by the Chancellor or by a retired or present Justice of the High Court or of the Court of Appeal, or by a Judge of a County Court, or by some one of His Majesty's Counsel learned in the law, requested by the Chancellor or one of the Justices to act in that behalf.

WEEKLY SITTINGS.—A Judge sits at Osgoode Hall every week except vacation for the purpose of disposing of all business except trials which may be transacted by a single Judge. Chamber business on Tuesdays and Fridays. Court business on Mondays, Wednesdays and Thursdays. Sittings will be held at Ottawa and London respectively at least one day in each week (except vacation) to dispose of certain matters which can be determined by a single Judge. The Judges have now power on petition to constitute monthly or semi-monthly sittings in lieu of weekly.

CHAMBERS.—Chambers are held each day for such business relating to actions as may be transacted by a single judge out of Court. The Master in Chambers is empowered to obtain the assistance of any Official Referee to sit with or for him.

LONG VACATION extends from the 1st of July to the 31st of August, both inclusive. There is also a vacation from the 24th December to 6th January, both inclusive.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts by one of their Judges appointed in that behalf, are invested with special jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Supreme Court of Judicature meet annually on or before the day next preceding the Christmas Vacation, and severally elect, by a majority of votes, a Judge from their respective Courts or Division to be placed on the rota for the trial of election petitions during the ensuing year. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

COUNTY AND DISTRICT COURTS.—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to (*a*) Actions arising out of contract express or implied where the sum claimed does not exceed $800; (*b*) Personal actions, except actions for criminal conversation and actions for libel, where the sum claimed does not exceed $500; (*c*) Actions for trespass or injury to land where the sum claimed does not exceed $500, unless the title to the land is in question, and in that case also where the value of the land does not exceed $500, and the sum claimed does not exceed that amount; (*d*) Actions for obstruction of or interference with a right of way or other easement with values same as in clause (*c*); (*e*) Actions for the recovery of property, real or personal, including actions of replevin and actions of detinue where the value of the property does not exceed $500; (*f*) Actions for the enforcement by foreclosure or sale or for the redemption of mortgages, charges or liens, where the sum claimed to be due does not exceed $500; (*g*) Partnership actions where the joint stock or capital of the partnership does not exceed in amount or value $2,000; (*h*) Actions by legatees under a will for the recovery or delivery of money or property bequeathed

to them where the legacy does not exceed in value or amount $500, and the estate of the testator does not exceed in value $2,000; (*i*) All other actions for equitable relief where the subject matter involved does not exceed in value or amount $500; and (*j*) Actions and contestations for the determination of the right of creditors to rank upon insolvent estates where the claim of the creditor does not exceed $500. Appeals and motions for new trials are to be made to a Divisional Court.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county, for the trial of issues of fact, semi-annually on the second Tuesday in June and December, except in the Counties of Carlton and Middlesex where they are held on the first Tuesdays in June and December, and in the Counties of York and Wentworth, four sittings, commencing on the first Tuesdays in December and March, and the second Tuesdays in May and September, the Sessions being for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction; and (except in the County of York) sittings for the trial of issues without a jury shall be held in every County and District Court on the first Tuesday in April and October in each year for trials and assessments without a jury. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury. Sittings of the District Courts for trials with or without a jury shall be held as follows:—At Bracebridge and Sault Ste. Marie on the second Tuesday in June and November. Fort Francis, first Tuesday in April and November. Gore Bay, last Tuesday in May and third Tuesday in October. Kenora, first Tuesday in June and second Tuesday in November. North Bay, second Tuesday in June, fourth Tuesday in November. Parry Sound, first Tuesdays in June and December. Port Arthur, first Tuesday in May, second Tuesday in November. Sudbury, first Tuesdays in June and November.

COUNTY JUDGE'S CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions *may, with their own consent*, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists for Provincial Elections.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts.

DIVISION COURTS are held for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract up to $100—and where the balance claimed is over $100 and under $200—and the original amount was ascertained by the signature of the defendant, subject in some cases to an appeal to a Divisional Court, but the sum of the account to be gone into cannot exceed $400; injuries or torts to personal chattels up to $60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquor drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

THE LAW OF INTESTATES ESTATES.

DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed $1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of a year (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

TABLE SHOWING THE DISTRIBUTION OF PERSONAL PROPERTY OF INTESTATES IN ONTARIO SINCE JULY 1ST, 1886.

If the Intestate die leaving:	*His representatives take in the following proportions:*
Wife and child or children	One-third to wife, rest to child or children; if children dead, then to their representatives (that is, their lineal descendants), except such child or children (not heirs-at-law) who had estate by settlement of intestate or were advanced by him in his lifetime equal to the other shares.
Wife only	Net value of estate not exceeding $1,000 to wife absolutely. Excess over $1,000, half to wife; and half to next of kin, in equal degree to intestate, or their legal representatives, or if no next of kin, to the Crown.
No wife or child	All to the next of kin, and to their legal representatives.
Child, children or their representatives	All to him, her or them.
Children by two wives.	Equally to all.
If no child, children or representatives	All to next of kin, in equa degree to intestate.
Child or grandchild by deceased child	Half to child, half to grandchild, who takes by representation.
Husband only	Half to him and half as if he had predeceased intestate.
Husband and child or children	Third to husband and two-thirds to children.
Father and mother	Equally to both.
Father, mother, brother or sister—Equally to all.	
Mother and brother or sister—Whole to them equally.	
Wife, mother, brother, sister, and nephews or nieces	Half to wife, residue to mother, brothers, sisters and nieces, but nephews and nieces take *per stirpes*.
Wife and father	Half to wife, half to father.
Wife, mother, nephews and nieces	Two-fourths to wife, one-fourth to mother and one-fourth to nephews and nieces.
Wife, brother or sister and mother	Half to wife, half to brothers, sisters and mother equally.
Mother only—The whole (it being then out of the statute).	
Wife and mother	Half to wife and half to mother
Brother or sister of whole blood, and brother and sister of half blood	Equally to both.
Posthumous brother or sister, and mother	Equally to both.
Posthumous brother or sister, and brother or sister born in lifetime of father	Equally to both.

LEGAL WEIGHTS AND MEASURES IN CANADA.

The legal weights and measures of Canada are the Imperial yard, Imperial pound avoirdupois, Imperial gallon (of 277·27384 cubic inches), and the Imperial bushel. The Imperial gallon is equal to 4·54174 litres, while the wine gallon, used in the United States, is equal to 3·785 litres.

By Sec. 337 of Chap. 85 of Revised Statutes of Canada, 1906, it is provided: That in contracts for sale and delivery of any of the undermentioned articles, the bushel should be determined by weighing, unless a bushel by measure be specially agreed upon, the weight equivalent to a bushel being as follows:—

Wheat, 60 lbs. Indian Corn, 56 lbs. Rye, 56 lbs. Pease, 60 lbs. Barley, 48 lbs. Malt, 36 lbs. Oats, 34 lbs. Beans, 60 lbs. Flax seed, 56 lbs. Hemp, 44 lbs. Blue grass seed, 14 lbs. Lime, 70 lbs. Castor beans, 40 lbs. Potatoes, 60 lbs. Turnips, 60 lbs. Carrots, 60 lbs. Parsnips, 60 lbs. Beets, 60 lbs. Onions, 50 lbs. Bituminous coal, 70 lbs. Clover seed, 60 lbs. Timothy, 48 lbs. Buckwheat, 48 lbs.

By Sec. 19, Chap. 52 of the Revised Statutes of Canada, 1906, the British hundredweight of 112 pounds, and the ton of 2,240 pounds were abolished, and the hundredweight was declared to be 100 pounds, and the ton 2,000 pounds avoirdupois, thus assimilating the weights of Canada and the United States.

By recent Acts it is ordered that for apples the barrel shall be 96 quarts. Size, length, 26½ inches between head (inside measure); diameter (head) 17 inches; middle diameter, 18½ inches. Boxes, 11 x 10 x 20 inches containing 2,200 cubic inches.

THE ROYAL MILITARY COLLEGE

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and, in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of $9\frac{1}{2}$ months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about $800.

The annual competitive examination for admission to the College takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.

NOTE.—While great pains have been taken to make the following list complete and accurate, the publishers do not guarantee to give the names of all Barristers and Solicitors practising in the Province. Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees may be appointed by the City Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have also the right to appoint trustees. The Principal of the High School or Collegiate Institute must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and local rates must be raised. Every High School should have a Principal and at least two assistant teachers. Each school receives a fixed amount of $375, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation to the Universities. There were 43 Collegiate Institutes, 105 High Schools, and 137 Continuation Schools doing the same grade of teaching in connection mainly with the Public and Separate Schools in Ontario in 1912.

Public Schools.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality.

Educational Museum.—Connected with the Department of Education is a Museum, containing specimens of school apparatus, etc., a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts; an art gallery of paintings by Canadian artists. Here also is the largest collection of archæological material in the Dominion, chiefly illustrative of Ontario, and of North America. R. Orr, M.D., Director of Museum. The Museum is open to the public from 9 a.m. to 5 p.m.

LIFE ASSURANCE IN CANADA.

The business of life assurance in Canada during the year, 1911, was conducted by 42 active companies—25 Canadian, 6 British, and 11 American.

NEW ASSURANCES EFFECTED.

In the year under review, the new policies effected amounted to $176,866,979, an increase over those taken out in the preceding year of $24,104,459. The respective amounts effected in each of the three classes of companies were:

Canadian Companies, $110,077,453, or 62% of the whole
British " 5,591,832, " 3% " "
United States " 61,197,694, " 35% " "

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by over $43,000,000.

TOTAL ASSURANCE IN FORCE.

The aggregate of life assurance in force December 31st, 1911, amounted to $950,220,771, an increase over that of the previous year of no less than $94,107,712. The distribution is shown as follows:

—	Amount in Force.	Increase.
	$	$
Canadian Companies.....	626,770,154	61,103,044
British "	50,919,675	3,102,900
United States "	272,532,942	20,901,768
Total.....	$950,220,771	$94,107,712

The progress of the business, from the standpoint of the aggregate volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the three previous decades:

AGGREGATE LIFE ASSURANCE IN FORCE AT CLOSE OF

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	$	$	$	$
1880	37,838,518	33,643,745	19,789,863	91,272,126
1890	135,218,990	81,599,847	31,613,730	248,424,567
1900	267,151,086	124,433,416	39,485,344	431,069,846
1911	626,770,154	272,530,942	50,919,675	950,220,771

From $91,000,000 in 1880 to $950,000,000 in 1911, represents the large increase of over 944% in thirty-one years.

DEATH RATE.

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1911 was 9·730 per 1,000, a rate lower than that experienced in any one of the preceding four years. The following table gives the rate for each of the years 1907-8-9-10-11:

—	1911.	1910.	1909.	1908.	1907.
Active Companies (ordinary)	7·860	7·830	8·231	8·375	8·617
Active Companies (industrial)	10·897	12·561	12·086	11·935	12·054
Assessment and Fraternal Societies	9·631	8·904	9·089	8·683	8·946
Non-active and retired companies...	30·839	39·216	36·766	52·643	46·440
Total.....	9·730	10·419	10·260	10·154	10·239

BENEFITS TO POLICYHOLDERS.

During 1911 the amount disbursed on behalf of policyholders by way of death claims, endowments, dividends, was somewhat less than in the previous year, the whole aggregating $19,194,828·42. The details are as follows:

For Death Claims	$9,207,850·71
For Matured Endowments.....	3,568,026·68
For Annuities	570,423·15
For Cash Surrender Values.....	3,703,781·82
For Dividends and Profits.....	2,144,746·06
	$19,194,828·42

ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES.

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies for the year ending December 31st, 1911:

Companies.	Assets.	Total Liabilities.	New Ass'rance effected in Canada.
British Columbia Life.....	$ 104,240	$ 10,049	$1,095,805

Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England.

Under c. 172 (1897), the Benchers are, exclusive of *ex-officio* members, elected by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Supreme Court for Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer. who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Court of Appeal and the High Court of Justice for Ontario; with a valuable and extensive library.

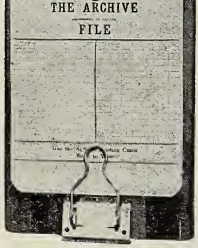
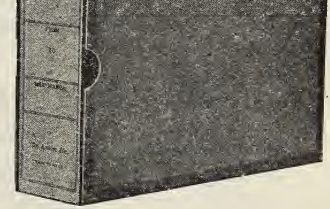
ARCHIVE OFFICE FILE





That new copper finish makes it a handsome addition to the office furniture.
That new mechanism in the arch makes it stronger than the best now on the market.
That red index makes letter filing almost a pleasure, as the letters of the index show to perfection against the white background of the ordinary business letter.
